White Tiger Continues to Drill Marshall Lake Copper-Silver-Gold Property, Ontario

West Vancouver, British Columbia – September 12, 2012 – White Tiger Mining Corp. (the “Company” or “White Tiger”) is pleased to announce that successful results are continuing from its Marshall Lake copper, silver and gold exploration property. Thus far the Company has completed the first portion of its planned 4,000 metre drill program on the Property, which drilling program is expected to continue for a further 4 to 5 weeks. The Marshall Lake Property is located 30 km west of Nakina, Ontario, and is accessible via a good all weather gravel road from Hwy 11 and is 22 km north of the main CNR rail line.

The first drill hole (drill hole RMZ-12-31) was drilled at an azimuth of 205 degrees and dip of -45 degrees and intersected copper mineralization near surface from 49 metres to 98 metres. This first drill hole was collared 110 metres due north of RMZ-12-28, on nearly the opposing azimuth in an effort to further evaluate mineralization intersected in RMZ-12-28, as previously drilled by the Company. Drill hole RMZ-12-31 was advanced to a depth of 270 metres. Copper mineralization was intersected from 222 metres to 265 metres, which the Company believes may be the indication of a new zone of mineralization. Drill hole RMZ-12-31 ended approximately 190 metres vertically below surface.

The drill core is being sampled and prepared for shipping to ALS Minerals in Thunder Bay, Ontario and assays will be reported by the Company once received and reviewed.

This news release has been reviewed and approved by Mr. Gordon Gibson, P.Geo. who is acting as the Company’s Qualified Person for the Marshall Lake property project, in accordance with regulations under NI 43-101.

White Tiger has the option to earn a 50% interest in the Marshall Lake property project from Rainy Mountain Royalty Corp. (“Rainy Mountain” – TSX-V:RMO) and Marshall Lake Mining PLC (“MLM”) by spending \$4 million in exploration expenditures over 5 years and issuing 2 million shares over 4 years to Rainy Mountain. As well, White Tiger has the additional option to increase its interest to 75% by incurring such additional expenditures as are necessary to take the project to bankable feasibility stage.
