**White Tiger Mining Updates Drill Progress for Marshall Lake  
Copper-Silver-Gold Property, Ontario**

**West Vancouver, British Columbia** – October 4, 2012 – White Tiger Mining Corp. (the “Company” or “White Tiger”) is pleased to announce that successful results are continuing from its Marshall Lake copper, silver and gold exploration property. The Marshall Lake Property is located 30 km west of Nakina, Ontario, and is accessible via a good all weather gravel road from Hwy 11 and is 22 km north of the main CNR rail line.

To date the Company has completed 8 drill holes totaling 1,968 metres of its planned 4,000 metre drill program on the Property. In each hole mineralization occurrence has been visually observed. At this time, drilling operations have been paused as remaining drill core is sampled and prepared for shipping to ALS Minerals in Thunder Bay, Ontario. Initial assays are expected in two to three weeks’ time, and will be reported by the Company once received and reviewed. The temporary drilling postponement will give the Company time to update its geological modeling and interpretation and to prioritize targets for ongoing drilling. Drilling is expected to resume on or about October 29, 2012.

The 4,000 metre drill program is being supervised by Mr. Gordon Gibson, P.Geo. who is acting as the Company’s Qualified Person for the Marshall Lake property project.

White Tiger has the option to earn a 50% interest in the Marshall Lake project from Rainy Mountain Royalty Corp. (“Rainy Mountain” – TSX-V:RMO) and Marshall Lake Mining PLC (“MLM”) by spending \$4 million in exploration expenditures over 5 years and issuing 2 million shares over 4 years to Rainy Mountain. As well, White Tiger has the additional option to increase its interest to 75% by incurring such additional expenditures as are necessary to take the project to bankable feasibility stage.
