

White Tiger Announces Additional Assay Results for its Marshall Lake Copper, Silver and Gold Property, Ontario

West Vancouver, British Columbia – February 21, 2013 – As a follow up to its news release of February 13, 2013 and in addition to the initial assay results described in its news release of December 3, 2012, White Tiger Mining Corp. (the “Company” or “White Tiger”) is pleased to report further infill assay results from core drill hole RMZ 12-33, which assay results are presented in the following table:

Hole Number	From (metres)	To (metres)	Width (metres)	Cu (%)	Ag (g/tonne)	Au (g/tonne)
RMZ 12-33	10	23	13	0.24	0.09	0.006
including	10	16	6	0.44	1.32	0.125
including	12	16	4	0.62	1.90	0.019
and	147	199	52	0.33	1.23	0.016
including	147	169	22	0.54	2.30	0.024
including	149	154	5	1.57	6.14	0.088

**please note that newly reported assay results are shown in boldface print.*

Drill core was split at the Marshall Lake property and sample preparation was done by ALS Chemex in Thunder Bay, Ontario. Pulp samples (<75 microns) were then sent by secure courier to ALS Chemex in North Vancouver, British Columbia and analyzed by ICP spectrometer ("ICP") using a 0.5g representative pulp dissolved in Aqua Regia (3 acid) digestion. All samples grading over 1.0% copper were re-assayed with ore grade ICP and Aqua Regia digestion. Gold analysis was done on a 30 gram sample by fire assay extraction with AA ("Atomic Absorption") finish.

Initial assay results from drill hole RMZ 12-33 were reported in the Company's news release dated December 3, 2012. Additionally, the Company is awaiting assay results from drill holes RMZ 12-38 and 39, which will be reported once received and analyzed. Once all of the assay results have been reviewed and 3D modeled, the Company intends to schedule its next phase of drilling.

The Marshall Lake property is an advanced exploration stage copper (Cu), silver (Ag) and gold (Au) project located 30 km west of Nakina, Ontario (access is via good all weather gravel road from Hwy 11 and 22 km north of the main CNR rail Line).

White Tiger has the option to earn a 50% interest in the Marshall Lake property project from Rainy Mountain Royalty Corp. ("Rainy Mountain" – TSX-V:RMO) and Marshall Lake Mining PLC ("MLM") by spending \$4 million in exploration expenditures over 5 years and issuing 2 million shares over 4 years to Rainy Mountain. As well, White Tiger has the additional option to increase its interest to 75% by incurring such additional expenditures as are necessary to take the project to bankable feasibility stage. As at October 31, 2012 (the Company's most recent fiscal year end), White Tiger has earned a 25% joint venture interest in the Marshall Lake property project.

This news release has been reviewed and approved by Gordon Gibson P.Geo., who is acting as the Company's Qualified Person for the Marshall Lake property project, in accordance with regulations under NI 43-101.
