

Stakeholder Webcast Update

TORONTO, ONTARIO – (May 5, 2015) - Stakeholder Gold Corp. ("Stakeholder", or the "Company") (TSX-V: SRC) is holding a Webcast on Thursday May 7th at 3:00 PM EST. The webcast will discuss exploration prospects for the Company's Ballarat Gold Project in the Yukon, and will provide a review of the recently concluded Bass River drill program.

GroundTruth Exploration Inc. founder Shawn Ryan will join the call to discuss the use of proprietary technologies such as the GT Probe, the GT RAB Drill and the exploration applications developed for the UAV Drone. Stakeholder will be working with GroundTruth who will be using their industry leading technologies for exploration of the Ballarat Gold Property and for other exploration projects in the White Gold District.
