## Construction contract signed for Collie Micronising Facility

International Graphite Limited (**ASX: IG6, FWB: H99**) has signed the key contract for construction of the process building at the Company's new Collie Micronising Facility, in Western Australia.

Leading Bunbury based construction company Prosser Built has been awarded the contract. Established more than 80 years ago, Prosser Built has an extensive track record delivering industrial and commercial projects across the south-west of Western Australia.

The facility will be delivered with support from local engineering, electrical, civil and earthmoving firms within a local content strategy IG6 has developed.

As previously reported, the contract price is within the budgeted capital cost estimate, which includes \$6.3 million for Stage 1 and an additional \$1.7 million for Stage 2.<sup>1</sup>

Graphite micronising equipment for Stage 1 has been selected and orders placed.

Vendor testwork is now underway to finalise equipment selection for Stage 2 and orders are expected to be placed next quarter.

The full development, comprising both Stages 1 and 2, is scheduled for completion in Q2 2027.

The project has the support of the Western Australian Government through the Collie Industrial Transition Fund and support from the Australian Government through the Critical Minerals Office.

**This announcement has been authorised for release by the Board of International Graphite Limited.**

<sup>1</sup> ASX Announcement 28 May 2026

## About IG6

International Graphite Limited (ASX: IG6, FWB: H99) is establishing mid-stream graphite processing operations in Australia and Europe to supply high-spec industrial graphite products for established markets seeking secure and reliable alternatives to traditional supply chains.

Recent European Union initiatives, including the Critical Raw Materials Act, together with broader G7 efforts to strengthen critical minerals supply, highlight the growing importance of building industrial capacity within trusted jurisdictions.

Through the Alkeemia / IG6 Joint Venture at Porto Marghera, Italy, and the Collie Processing Facility in Western Australia, the Company is developing a capital-efficient graphite processing platform, supported by proven technologies and industry partnerships. The platform is designed to serve growing demand from industrial, energy storage, advanced manufacturing and defence applications. IG6 also owns the globally significant Springdale Graphite Project in Western Australia, providing long-term feedstock optionality for future scaling of process operations.

## Forward-looking statements

Certain statements in this announcement relate to the future, including forward-looking statements relating to the Company and its business. Forward-looking statements include, but are not limited to, statements concerning International Graphite Limited planned business activities and other statements that are not historical facts. When used in this document, the words such as "could", "plan", "estimate", "expect", "intend", "may", "potential", "should", and similar expressions are forward looking statements.

These forward-looking statements involve known and unknown risks, uncertainties, assumptions, and other important factors that could cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such statements. Actual events or results may differ materially from the events or results expressed or implied in any forward-looking statement and deviations are both normal and to be expected. Neither the Company, its officers nor any other person gives any representation, assurance or guarantee that the events or other matters expressed or implied in any forward-looking statements will actually occur. You are cautioned not to place undue reliance on those statements.
