1 CHAIRMAN'S LETTER

3 February 2025

Dear Maximus Shareholders,

On behalf of the Board and management of Astral, I am pleased to present you with this compelling Offer for your Maximus Shares.

The Offer is for one (1) Astral Share for every two (2) of Your Maximus Shares, which implies an Offer value of \$0.073 per Maximus Share, based on the 5-day VWAP of Astral Shares of \$0.145 prior to the release of this Offer.¹

Benefits of the Offer and transaction rationale:

The Offer represents a significant premium to the undisturbed trading prices of Maximus Shares prior to Astral and Maximus jointly announcing on 30 December 2024 that Astral had acquired a 19.99% stake in Maximus and that the two companies were in exclusive discussions regarding a potential corporate transaction.

The implied \$0.073 value of the Offer represents a:

- **61% premium** to Maximus' last undisturbed closing price of \$0.045 on 24 December 2024;
- **67% premium** to Maximus' 30-day volume weighted average share price of \$0.043 up to and including 24 December 2024;
- **48% premium** to Maximus' 12 month closing share price high of \$0.049 (up to and including 24 December 2024);
- **175% premium** to Maximus' 12 month closing share price low of \$0.026 (up to and including 24 December 2024); and
- **\$93/oz Resource acquisition price²**, based on the current Maximus published JORC-compliant Mineral Resource Estimate.

The Maximus Board unanimously recommends that you **ACCEPT** the Offer in the absence of a Superior Proposal and Maximus Directors who own or control Maximus Shares have confirmed that they intend to accept or procure the acceptances of the Offer in respect of the Maximus Shares that they own or control, in the absence of a Superior Proposal. The support of Maximus' Directors who collectively own or control approximately 1.20%³ of the Maximus Shares on issue in conjunction with Astral's existing 19.95% ownership of Maximus (which it acquired from two major shareholders as announced on 30 December 2024) indicates strong support for the Offer.

By accepting the Offer and receiving Astral Shares, you will continue to have exposure to any upside from Maximus' Wattle Dam project and regional exploration potential whilst also gaining exposure to a company with significant liquidity, 1.46 million ounces of gold Mineral Resources inventory and 100% ownership of the advanced Mandilla Gold Project currently undergoing a preliminary feasibility study. Additionally, Astral is in a strong financial position with \$25.2 million in cash, as at 31 December 2024, and no near term capital raising requirements.

¹ Astral VWAP calculated using the 5 trading days up to and including 31 January 2025 and equals \$0.145 per Astral Share.

² Based on the implied equity value of Maximus using the implied Offer value of \$0.073 per Maximus share and Maximus' 428,787,671 ordinary shares on issue.

³ It is noted that the latest ASX Appendix 3Y filed by Graham McGarry discloses he has an indirect interest in 33,031,433 Maximus Shares held by Beacon Minerals Limited due to his position as a director of Beacon Minerals Limited. However, no substantial shareholder notice has been filed by Mr McGarry disclosing that he has a Relevant Interest in these Maximus Shares. Accordingly, this figure does not include the Maximus Shares held by Beacon Minerals Limited.

In addition to the benefits of receiving Astral Shares, the combination of Astral and Maximus creates a company with increased size, scale and market relevance, all attributes which enhance re-rating potential. The combined entity will have a pro forma market capitalisation of around \$205 million, a combined (and proximal) Mineral Resource of approximately 1.8 million ounces of gold and regional gold targets underpinning significant exploration potential, including a clear path for development given Astral's plan to build a processing plant.

If you retain your Maximus Shares, the amount you will be able to realise for your Maximus Shares is uncertain and subject to a number of potential risks (both company-specific and market-based).

For further information on Astral and the reasons to accept the Offer please see Sections 4 and 2 of this Bidder's Statement respectively.

Conditions of the Offer

This Offer and any contract which results from your acceptance of the Offer is subject to the following Conditions:

- A 50.1% minimum acceptance condition
- No Material Adverse Change
- No Prescribed Occurrence
- No Regulated Event
- No Breach of Maximus Warranty
- No regulatory actions

A full list of Offer conditions is provided in Section 12.8 of this Bidder's Statement.

Next Steps

Please carefully read this Bidder's Statement. Full terms of the Offer are set out in Section 12.1 of this Bidder's Statement.

The Offer is open until **7:00pm (AEDT) on Friday, 7 March 2025**, unless extended or withdrawn in accordance with the Corporations Act.

I strongly encourage you to ACCEPT the Offer as soon as possible.

To accept the Offer, please follow the instructions on the accompanying Acceptance Form. If you require additional assistance, please call the Offer Information Line on 1300 103 392 (for callers within Australia) or +61 2 9068 1925 (for callers outside Australia). We appreciate your consideration of our Offer and look forward to the prospect of delivering significant shareholder value to you.

Yours sincerely,

Mark Connelly
Non-Executive Chairman
Astral Resources NL

2 REASONS TO ACCEPT THE OFFER

WHY YOU SHOULD ACCEPT THE OFFER

1. The Offer is unanimously recommended by the Maximus Board, in the absence of a Superior Proposal
2. The Offer Consideration represents a compelling premium for Maximus Shareholders
3. Accepting the Offer provides Maximus Shareholders with attractive liquidity
4. Accepting the Offer provides exposure to Astral, the Maximus portfolio and the benefits of consolidation, including a dominant contiguous landholding in a premier gold-producing region
5. You will be issued shares in Astral, a company that has no near-term capital raising requirements
6. Astral owns 19.95% of Maximus Shares and the Offer has the support of Maximus Directors, altogether representing 21.15% of Maximus Shares
7. No Superior Proposal or alternative offer has emerged – Astral's ownership of 19.95% of Maximus Shares could discourage a counter offer
8. The Maximus Share price may fall if Astral does not acquire 100% of Maximus
9. Accepting the Offer removes possible minority shareholder risks of remaining a Maximus Shareholder
10. Maximus Shareholders may be entitled to capital gains tax relief provided Astral acquires 80% or more of Maximus Shares

ACCEPT THE OFFER

2.1 **The Offer is unanimously recommended by the Maximus Board, in the absence of a Superior Proposal**

The Maximus Board unanimously recommends that Maximus Shareholders accept the Offer, in the absence of a Superior Proposal.

Additionally, Maximus Directors who own or control Maximus Shares have confirmed that they intend to accept or procure the acceptances of the Offer in respect of the Maximus Shares that they own or control, in the absence of a Superior Proposal.

Collectively, the Maximus Directors own or control approximately 5.1 million Maximus Shares, representing approximately 1.20%⁴ of all Maximus Shares on issue (excluding Maximus Options and Performance Rights) as at the date of this Bidder's Statement.

2.2 **The Offer Consideration represents a compelling premium for Maximus Shareholders**

The Offer Consideration represents a compelling premium to the undisturbed Maximus Share trading value prior to 30 December 2024, where it jointly announced with Astral that Astral had acquired a 19.99% stake in Maximus and that the companies were in discussions regarding a potential corporate transaction (**Initial Announcement Date**).

Under the Offer, Maximus Shareholders will receive one (1) Astral Share for every two (2) Maximus Shares held, which implies a value of 0.073 per Maximus Share based on Astral Shares' 5-day VWAP up to and including 31 January 2025.⁵

The implied value of \$0.073 per Maximus Share provides Maximus Shareholders with the ability to receive compelling premiums, specifically:

- **61% premium** to Maximus Shares' last undisturbed closing price of \$0.045 on 24 December 2024;
- **67% premium** to Maximus Shares' 30-day volume weighted average share price of \$0.043 up to and including 24 December 2024;
- **48% premium** to Maximus Shares' 12 month closing share price high of \$0.049 (up to and including 24 December 2024);
- **175% premium** to Maximus Shares' 12 month closing share price low of \$0.026 (up to and including 24 December 2024); and
- **\$93/oz Resource acquisition price**⁶, based on the current Maximus published JORC-compliant Mineral Resource Estimate.

2.3 **Accepting the Offer provides Maximus Shareholders with attractive liquidity**

In addition to a compelling premium, the Offer provides Maximus Shareholders with superior liquidity and therefore enhanced ability to crystallise all or part of their investment if they so choose.

Over the three months of trading on ASX prior to the Initial Announcement Date, approximately \$32 million of Astral Shares traded. This traded amount is equivalent to approximately 168% of Maximus' market capitalisation of approximately \$19 million prior to Initial Announcement Date. In comparison, approximately only \$2.3 million of Maximus Shares traded in the same time period, equivalent to approximately 12% of Maximus' \$19 million market capitalisation.

⁴ It is noted that the latest ASX Appendix 3Y filed by Graham McGarry discloses he has an indirect interest in 33,031,433 Maximus Shares held by Beacon Minerals Limited due to his position as a director of Beacon Minerals Limited. However, no substantial shareholder notice has been filed by Mr McGarry disclosing that he has a Relevant Interest in these Maximus Shares. Accordingly, this figure does not include the Maximus Shares held by Beacon Minerals Limited.

⁵ Astral VWAP calculated using the 5 trading days up to and including 31 January 2025 and equals \$0.145 per Astral Share.

⁶ Based on the implied equity value of Maximus using the implied Offer value of \$0.073 per Maximus share and Maximus' 428,787,671 ordinary shares on issue.

Figure 1: Maximus' and Astral's traded value in the 3 months up to and including 24 December 2024 and what proportion each traded value is of Maximus' market capitalisation at close of business on 24 December 2024. Source: IRESS.

The reduced liquidity in the trading of Maximus Shares relative to the liquidity of Astral Shares is a significant disadvantage for Maximus Shareholders, particularly in volatile markets. With an average Maximus turnover of only approximately \$34,646 per day over the last 3 months prior to Initial Announcement Date, it may only require one major Maximus Shareholder to exit to result in a material impact on Maximus' Share price.

The substantial liquidity, at a strong price, provided by the Offer should be a significant consideration for Maximus Shareholders.

2.4 **Accepting the Offer provides exposure to Astral, the Maximus portfolio and the benefits of consolidation**

Should Maximus Shareholders accept the Offer and Astral successfully acquires all of the Maximus Shares it does not already own, Maximus Shareholders will benefit from direct exposure to a company with the following key attributes:

✓ **Size, Scale & Market Relevance**

Pro-forma market capitalisation of around \$205 million and over 10 times the liquidity of Maximus based on recent trading prior to Initial Announcement Date.

In addition, Astral expects the Combined Group to have strong institutional support from its existing register as well as significant broker coverage with Canaccord Genuity, Euroz Hartleys and Rawson Lewis all writing research on Astral during 2024.

✓ **Exposure to Astral's Portfolio and its Flagship Mandilla Gold Project**

Maximus Shareholders who accept the Offer and become shareholders of Astral will gain exposure to Astral's larger, more advanced and development-ready portfolio. Astral has 1.46Moz of gold in Mineral Resource, its flagship asset, the Mandilla Gold Project, is currently being progressed through feasibility and Astral is fully funded to progress the Mandilla Gold Project to a final investment decision.

Astral's previously published Mandilla Scoping Study (published 21 September 2023) supports 100kozpa of gold production for the first 7 years with 81% of the Mandilla Mineral Resource (approximately 1 million gold ounces) contained in one large open pit – one of the largest undeveloped single pit gold deposits in Western Australia.

At a A\$4,100/oz life of mine gold price, the Scoping Study supports:

- **NPV Pre-tax (8% WACC): A\$1,183 million**

- **Pre-tax IRR: 168%**
- **Payback period: 5 months**

As at the Last Practicable Date, the spot price of gold was A\$4,426/oz.⁷ Detailed information on Astral and the Mandilla Gold Project is contained in Section 4.

✓ **Significant JORC Mineral Resource and landholding**

Consolidation of the companies to result in an initial combined 1.8 million ounce gold Mineral Resource with additional upside potential from established regional gold targets.

A Mineral Resource base of this size coupled with the surrounding land holding is likely to attract attention from some of the larger players in the region, as well as appeal to additional institutional investors.

At the time of successful completion of the transaction, the Combined Group will hold a dominant land position in the region, with approximately 169km² of primarily contiguous tenure.

✓ **Financial Strength & Access to Equity Capital**

Strong balance sheet with Astral having a 31 December 2024 cash position of approximately \$25.2 million and no debt as at the date of this Bidder's Statement.⁸

Astral is fully funded to a final investment decision at Mandilla, including the acceleration of exploration activities at Mandilla and Feysville, and completion of the Mandilla Pre-Feasibility and Definitive Feasibility Studies.

In addition, Astral has established a strong institutional investor base, representing approximately 20% of Astral's existing share register. Astral's institutional investors were pivotal in Astral's successful \$25 million capital raise announced in September 2024⁹ and will play a critical role in future project financing once a final investment decision at Mandilla is made.

The Combined Group will have increased scale and market relevance, which will likely appeal to both existing and new institutional investors further enhancing Astral's ability to raise future equity capital when required.

✓ **Continued Exposure to Maximus' Portfolio**

Maximus Shareholders who accept the Offer and become shareholders of Astral will continue to have exposure to Maximus' asset portfolio, including Wattle Dam, its lithium interests and the company's regional gold targets.

With Astral having a cash position of approximately \$25.2 million and no debt as at 31 December 2024, the Combined Group will have the financial capability and optionality to more aggressively explore Maximus' established regional gold targets as well as conduct infill drilling programs to enhance the confidence levels of the existing Mineral Resource. In contrast, Maximus had only \$2.1 million in cash at 31 December 2024,¹⁰ a significantly weaker financial position compared to the Combined Group.

✓ **Re-rating Potential**

Astral believes that the combination of the benefits outlined above coupled with the near all time high Australian dollar gold price is a catalyst for a potential share price re-rating, unlocking further value for shareholders of both Maximus and Astral.

⁷ IRESS data as at 31 January 2025.

⁸ Astral ASX Announcement – 13 January 2025 – Quarterly Activities & Cashflow Report.

⁹ Astral ASX Announcement – 25 September 2025 – Astral Funded to FID – Strongly Supported \$25M Placement

¹⁰ Maximus ASX Announcement – 15 January 2025 – Quarterly Activities/Appendix 5B Cash Flow Report

2.5 You will be issued shares in Astral, a company that has no near-term capital raising requirements

As outlined above, after completing a capital raise in September 2024, Astral had \$25.2 million in cash and no debt as at 31 December 2024, seeing it fully funded through to completion of the Mandilla Definitive Feasibility Study.

In contrast, Maximus had \$2.1 million in cash as at 31 December 2024.

2.6 Astral owns 19.95% of Maximus and the Offer has the support of Maximus Directors, altogether representing 21.15% of the Maximus Shares on issue

On 30 December 2024, Astral announced that it had acquired a 19.99%¹¹ total stake in Maximus Shares from a combination of Beacon Minerals Limited and Mr Colin Petroulas.

Subsequently, and in relation to this Offer, Maximus Directors collectively representing approximately 1.2%¹² of all Maximus Shares on issue confirmed that they intend to accept the Offer, in the absence of a Superior Proposal.

The support of Maximus' Directors in conjunction with Astral's existing 19.95% ownership of Maximus (which it acquired from Maximus' two major shareholders) indicates strong support for the Offer.

The table below provides a summary of the Maximus Director holdings and Astral's shareholding in Maximus as at the date of this Bidder's Statement.

Name	Maximus Shares held at date of Bidder's Statement	Percentage interest at date of Bidder's Statement (approximate)
Maximus Directors		
Total Maximus Directors	5,124,418	1.20% ¹²
Other		
Astral	85,542,745	19.95%
TOTAL	90,667,163	21.15%

2.7 No Superior Proposal or alternative offer has emerged – Astral's ownership of 19.95% of Maximus Shares could discourage a counter offer

As at the date of this Bidder's Statement, Astral's Board is not aware that any Competing Proposal or Superior Proposal exists and given Astral currently owns 19.95% of Maximus Shares, this may reduce the likelihood of a third party putting forward a Superior Proposal.

In addition, the Bid Implementation Deed prohibits the solicitation of any third party proposals during the term of the Bid Implementation Deed. Should Maximus Directors change their recommendation in response to an unsolicited proposal, Maximus may be obliged to pay a reimbursement fee of \$300,000 to Astral.

2.8 The Maximus Share price may fall if Astral does not acquire 100% of Maximus

The implied Offer Consideration of \$0.073 per Maximus Share is approximately 61% above the last closing price of Maximus Shares prior to Initial Announcement Date. Immediately following the Initial Announcement Date, Maximus Share price increased towards the implied Offer Consideration. Maximus Shares continue to trade at levels close to the implied Offer Consideration as at the date of this Bidder's Statement.

¹¹ Due to a small subsequent issuance of Maximus Shares, Astral's Relevant Interest in Maximus has decreased from 19.99% to 19.95%.

¹² It is noted that the latest ASX Appendix 3Y filed by Graham McGarry discloses he has an indirect interest in 33,031,433 Maximus Shares held by Beacon Minerals Limited due to his position as a director of Beacon Minerals Limited. However, no substantial shareholder notice has been filed by Mr McGarry disclosing that he has a Relevant Interest in these Maximus Shares. Accordingly, this figure does not include the Maximus Shares held by Beacon Minerals Limited.

If at the end of the Offer Period Astral has an interest in less than 90% of Maximus Shares, it does not become entitled to compulsorily acquire the Maximus Shares that have not been accepted into the Offer. Should Astral not acquire 100% of Maximus and no Superior Proposal emerges, the Maximus Share price may decline back to and potentially below the values experienced prior to Initial Announcement Date. Maximus Shares last traded price prior to Initial Announcement Date was \$0.045 per share.

2.9 Accepting the Offer removes possible minority shareholder risks of remaining a Maximus Shareholder

If you do not accept the Offer and Astral acquires a majority of Maximus Shares but does not become entitled to compulsorily acquire your Maximus Shares, you will become a minority shareholder in Maximus with reduced influence in the running of the business.

In this scenario, decisions made in respect of the business of Maximus, under the control of Astral, may impact those Maximus Shareholders who do not accept the Offer.

Furthermore, Astral's controlling position in Maximus may affect the liquidity of the minority Maximus Shareholders. This may make it more difficult for minority shareholders to sell their Maximus Shares at an attractive price, which should be considered in conjunction with Section 2.8 above.

Please see Section 8 of this Bidder's Statement for further information regarding Astral's intention regarding Maximus.

2.10 Maximus Shareholders may be entitled to capital gains tax relief provided Astral acquires 80% or more of Maximus Shares

Provided Astral achieves ownership of more than 80% of Maximus Shares, eligible Maximus Shareholders may be entitled to rollover relief from capital gains tax on the consideration they receive under the Offer. However, Maximus Shareholders may be subject to capital gains tax as a result of a later taxable event (such as a disposal) occurring in respect to the Astral Shares received as the Offer Consideration. Please refer to Section 10 for more information. You should consult a qualified tax adviser for further taxation advice.

4 INFORMATION ABOUT ASTRAL

4.1 Overview

Astral (ASX: AAR) is an Australian based gold company listed on ASX and focussed on the exploration, growth and development of its flagship Mandilla gold project (**Mandilla** or **Mandilla Gold Project**).

Located approximately 70km south of Kalgoorlie in Western Australia, Mandilla hosts a JORC-compliant Mineral Resource Estimate (**MRE**) of 1,265koz contained gold. Astral completed a scoping study on Mandilla in September 2023 (**Scoping Study**) and a pre-feasibility study is currently underway and expected to be completed in Q2 2025 (**PFS**).

Concurrently, Astral is progressing the Feysville gold project (**Feysville** or **Feysville Gold Project**), which hosts an MRE of 196 koz contained gold and has potential to be a source of satellite ore feed to Mandilla given its close proximity. Across Mandilla and Feysville, Astral holds a combined MRE of 1,461 koz contained gold at an average grade of 1.1 g/t Au.

Astral also holds tenement interests at its Carnilya Hill project in the Western Australian Goldfields.

4.2 Principal activities of Astral Group

(a) Mandilla Gold Project (100% Astral) – Western Australia

Mandilla is situated in the northern Widgiemooltha greenstone belt in Western Australia and is covered by existing mining leases which are not subject to any third-party royalties other than the standard Western Australian Government gold royalty.

In July 2023, Astral announced an MRE of 1,265 koz contained gold at 1.1 g/t Au across the Theia, Iris, Eos and Hestia deposits.

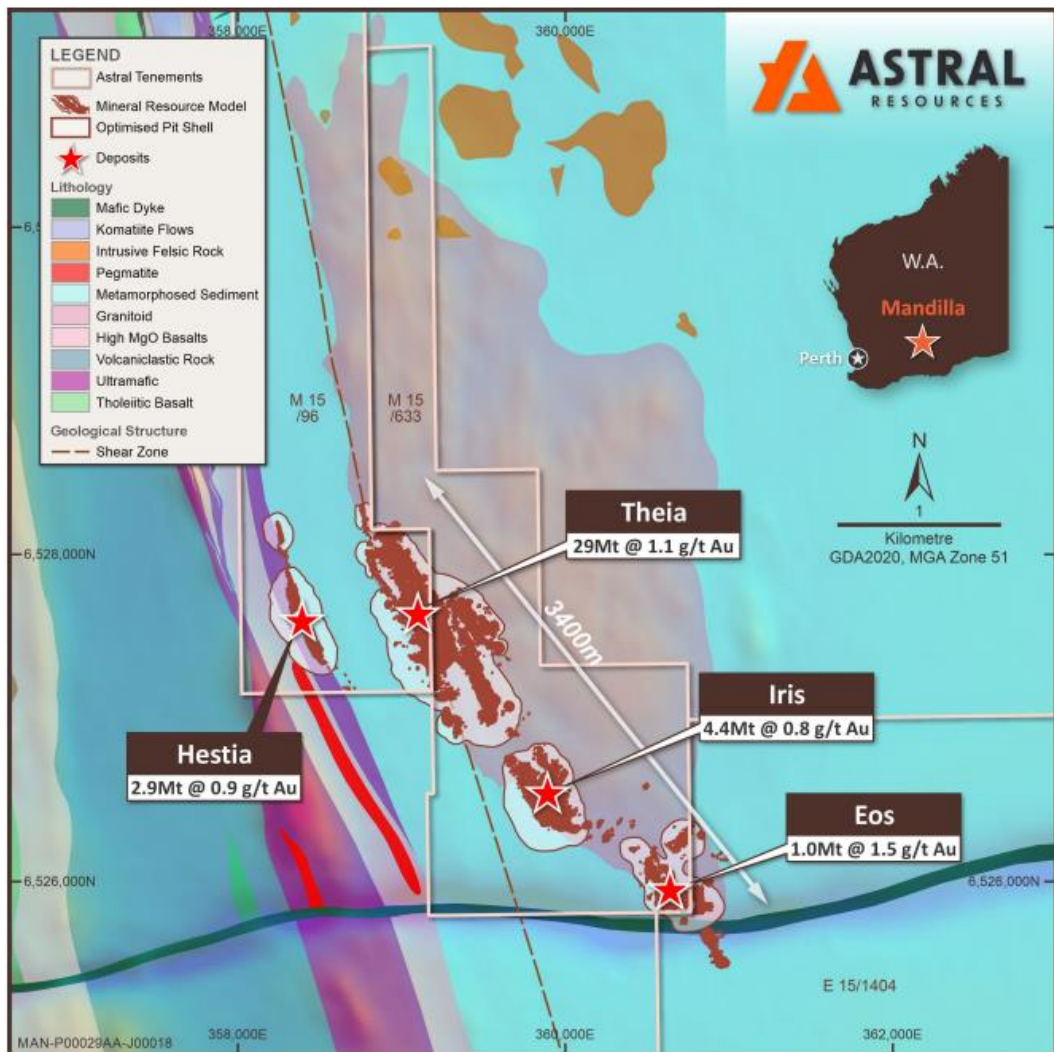

Figure 3: Mandilla location. Source: Astral ASX Announcement – 13 January 2025 – Quarterly Activities & Cashflow Report.

Metallurgical testing undertaken on each of the main deposits at Mandilla has demonstrated high gravity recoverable gold, fast leach kinetics and exceptional overall gold recoveries with low reagent consumptions and coarse grinding.

Gold mineralisation at Theia and Iris is comprised of structurally controlled quartz vein arrays and hydrothermal alteration close to the western margin of the Emu Rocks Granite and locally in contact with sediments of the Spargoville Group.

At Eos, located further to the south-east, a relatively shallow high-grade mineralised paleochannel deposit has been identified which extends over a length of approximately 600 metres. A primary gold source is also present with further drilling required to determine both the nature and structural controls on mineralisation and its extent.

Mineralisation delineated over approximately 800 metres of strike at the Hestia deposit, located approximately 500 metres west of Theia, is associated with a shear zone adjacent to a mafic/sediment contact, interpreted to be part of the major north-south trending group of thrust faults known as the Spargoville Shear Corridor.

(b) **Mandilla Gold Project Scoping Study**

In September 2023, Astral completed and released on ASX a Scoping Study for Mandilla. The Scoping Study considered Mandilla as a standalone project comprising three open pit mines, a 2.5Mtpa processing facility and life of mine annual production ranging between 80 to 100 koz of gold over an approximate 11-year project life. The five-stage open pit design was based on a A\$2,100/oz gold price pit optimisation.

The Scoping Study outlined a life of mine payable metal production target of 845 koz at an all-in sustaining cost of approximately A\$1,648 per ounce. Total pre-production and working capital requirements of approximately A\$191 million were determined.

Having been completed in late 2023, the Scoping Study used a A\$2,750/oz gold price as its base case. Since then, the gold price environment has changed materially, with sustained gold price growth observed throughout 2024 and in early 2025, with the current spot gold price at ~A\$4,426/oz.¹⁵

Whilst the A\$2,750/oz gold price used in the Scoping Study provides robust economic outputs, using gold prices more in line with the current environment significantly improves the economic outcomes. The sensitivity table below details the key Scoping Study economic results at various gold prices.

Table 4: Mandilla Scoping Study – Financial results summary. Source: Astral ASX Announcement – 21 September 2023 – Mandilla Gold Project Positive Scoping Study.

Notes:

1. Payback period is calculated from the start of gold production.
2. Capital intensity is calculated by dividing pre-production capital by average annual payable metal over the first 7.4-year period.

The Scoping Study was based on the MRE defined at Mandilla only. Further upside exists from ongoing exploration at Mandilla targeting resource growth as well as the inclusion of the nearby Feysville Gold Project as a potential future satellite ore source. The Scoping Study did not contemplate any contribution from the Iris deposit at Mandilla, which contains 115koz of gold.

(c) **Feysville Gold Project (100% Astral) – Western Australia**

Feysville is located in the north-north-west trending Norseman – Wiluna Greenstone Belt, within the Kambalda Domain of the Archean Yilgarn Craton, approximately 14km south of the Kalgoorlie Consolidated Gold Mines Super Pit.

Feysville has been interpreted to contain upthrust ultramafics, emplaced within a sequence of volcanic sediments (the Black Flag sediment group), granitic intrusions, mafic basalts, gabbro and andesite. A map of Feysville identifying tenements and deposits/prospects on local area geology is set out below.

Figure 4: Feysville deposit locations. Source: Astral ASX Announcement – 13 January 2025 – Quarterly Activities & Cashflow Report.

On 1 November 2024, Astral reported an updated MRE of 196 koz contained gold at 1.2 g/t Au across the Kamperman, Think Big and Rogan Josh deposits which demonstrated the potential for Feysville to be a source of satellite ore feed to Mandilla.

The Feysville MRE was reported using a 0.39g/t Au lower cut-off and is constrained within pit shells derived using a gold price of A\$2,500 per ounce, the same price as incorporated in the Mandilla MRE reported on 20 July 2023. The Feysville MRE includes maiden MREs for both the Kamperman and Rogan Josh deposits, as well as an updated MRE for the Think Big deposit.

The Feysville MRE is summarised below with a detailed breakdown by deposit.

(d) **Carnilya Hill Gold Project (100% Astral) – Western Australia**

The Carnilya Hill Gold Project is located approximately 20km south-south-east of Feysville and approximately 40km south-east of Kalgoorlie, Western Australia.

The project encompasses various tenements representing an aggregate area of approximately 2.65km².

5.2 Overview

Maximus (ASX:MXR), headquartered in South Australia, is an ASX listed company focussed on the expansion of gold resources through targeted exploration drilling programs.

Maximus holds a diversified portfolio of gold, lithium and nickel projects in the Kambalda region of Western Australia, including the Spargoville Gold Project (**Spargoville**), which contains an MRE of 335 koz contained gold at an average grade of 1.5 g/t Au.

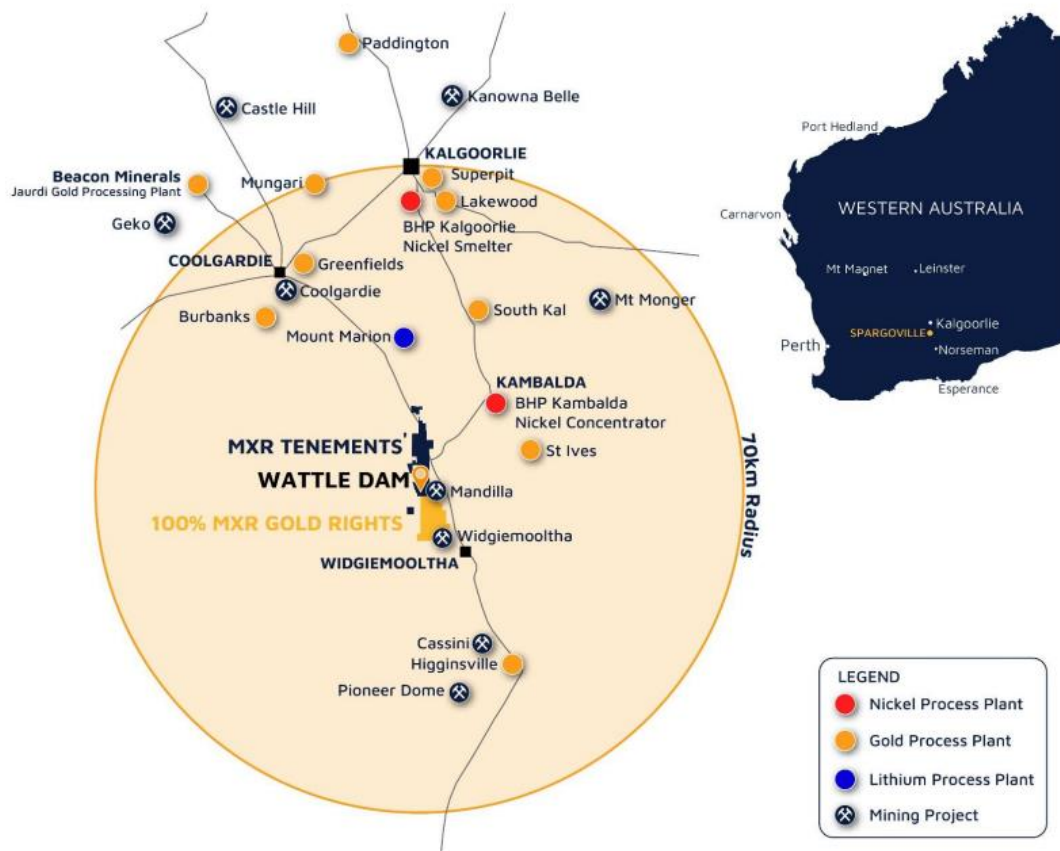

Figure 6: Maximus project locations. Source: Maximus ASX Announcement – 15 January 2025 – Quarterly Activities/Appendix 5B Cash Flow Report.

5.3 Principal activities of Maximus Group

(a) Spargoville Gold Project – Western Australia

Maximus holds ~117km² tenements and gold rights across Spargoville, located 25km from Kambalda in Western Australia. These tenements include the historically mined Wattle Dam gold mine, which produced ~286 koz gold at 10.1 g/t up until 2012.

The combined MRE of 335 koz contained gold is held across five deposits; namely Eagles Nest, Larkinville, 5B, Hilditch and Wattle Dam.

Notes:

1. Mineral Resources reported in Maximus' ASX announcement dated 19 December 2023.
2. Figures have been rounded and may not add up exactly to the totals provided.

Eagles Nest Deposit (100% Maximus)

The Eagles Nest deposit is located on granted tenements, with the deposit hosting an MRE of 42.6 koz contained gold at 2.0 g/t Au.

Gold mineralisation at Eagles Nest is associated with structurally controlled contacts between east-dipping mafic ultramafic lithologies and an adjacent interflow metasedimentary unit.

Preliminary metallurgical testing results have indicated that the Eagles Nest gold resource is free-milling (non-refractory) and suitable for conventional gold processing.

Larkinville Deposit (75% Maximus, 25% Develop Global)

In November 2023, Maximus increased its MRE at the Larkinville deposit to 14.0 koz contained gold at 1.8 g/t Au.

The Larkinville project area encompasses a typical greenstone sequence, which includes basalts, dolerites, high magnesium basaltic and intrusive rocks, komatiite ultramafics, felsic volcanics, and sedimentary rocks.

All required Larkinville development studies for relevant Mining Act and Environmental Protection Act approvals have now been completed. Environmental studies have indicated there are no significant environmental factors that trigger the requirement for approval under

¹⁷ Refer to Maximus' ASX Announcement titled 'Maximus reaches 335,000 oz Au following Hilditch and Larkinville Mineral Resource Upgrades' dated 19 December 2023.

Part IV of the Environmental Protection Act (1986) WA, or the Commonwealth Environmental Protection and Biodiversity Conservation Act (1999).

5B Deposit (100% Maximus)

The 5B deposit is situated approximately 1,800 metres to the north-east of the Wattle Dam gold mine and occurs on a subsidiary parallel shear zone to that which hosted the high-grade mineralisation.

The 5B deposit hosts a MRE of 7.5koz contained gold at 3.1 g/t Au. The mineralisation occurs within a shear zone at the contact of a small dunite body located between a basalt footwall and an ultramafic unit in the hanging wall.

Hilditch Deposit (90% Maximus, 10% Bullabulling Pty Ltd)

The Hilditch deposit is located on a granted mining tenement adjacent to the Coolgardie-Norseman Highway.

Maximus reported an MRE of 19.5koz contained gold at 1.3 g/t Au at Hilditch in December 2023. Mineralisation begins at surface, extending over a 200m strike length, and remains open at depth with significant potential for further extension along strike.

Wattle Dam Deposit (100% Maximus)

The historically mined Wattle Dam tenements host a current MRE totalling 251.5koz contained gold at 1.4 g/t Au. At depth, the high-grade main lode mineralisation of Wattle Dam is intersected by the regional Spargoville shear zone, causing the gold mineralisation to appear to be terminated.

The 8500N Paleochannel is located on granted mining lease M15/1101, within the Wattle Dam tenements. The 8500N Paleochannel is a highly prospective target, hosting shallow gold mineralisation between 5 and 20 metres below the surface. There is no MRE currently defined for the 8500N Paleochannel.

(b) Lefroy Lithium Project – Western Australia (100% Maximus)

The Lefroy Lithium Project was initially identified by +80 outcropping pegmatites coinciding with an extensive ~3km x ~1.5km lithium-in-soil anomaly.

During the December 2024 quarter, Maximus completed a multi-target RC drill program incorporating a maiden drill program at the Bird Rock prospect and a third-phase drill program at the advanced Kandui Lithium prospect. RC drilling at Bird Rock confirmed a sub-vertical, northeast striking pegmatite.

In October 2023, Maximus announced a Joint Venture (**JV**) with Korea Mine Rehabilitation and Mineral Resources Corporation (**KOMIR**) to earn 30% of the Lefroy Lithium project.

Under the JV, KOMIR was to fund US\$3 million of lithium exploration to earn a 30% interest in the JV. In December 2024, Maximus announced that KOMIR had elected to continue the agreement until 2026 and will fund the remaining US\$2 million of lithium exploration over the following two years.

(c) Larkinville Lithium Project – Western Australia (75% Maximus, 25% Develop Global)

The Larkinville Lithium Project is located approximately ~10km south of Maximus' Lefroy Lithium Project.

Assay results have defined a strong (+200ppm Li₂O) lithium-in-soil anomaly over approximately 900m in strike and 800m in width with field mapping defining a border pegmatite swarm occurring in a zone ~1.2km long and 1.4km wide.

Ground reconnaissance of the priority area identified spodumene-bearing rocks with significant assay results reporting up to 1.76% Li₂O (SMX00982), highlighting the effectiveness of soil geochemistry mapping in the Spargoville region.

(d) Flushing Meadows Gold Royalty – Western Australia

The Flushing Meadows Project is currently being progressed by Yandal Resources Ltd (**Yandal**). The royalty obligation by Yandal to Maximus is:

- (i) \$40 per ounce on the first 50,000 ounces of gold from the tenement area. Yandal must prepay the first \$200,000 of royalties upon commencement of gold production from all or any part of the tenement area; and
- (ii) \$20 per ounce for gold in excess of 50,000 ounces and less than 150,000 ounces in respect of gold from the tenement area. Additionally, there is a 3% net smelter return royalty for any gold by-product or co-product from the tenement area.

The royalty is satisfied once there is 150,000 ounces of gold produced from any part of the tenement area and is capped at \$4,000,000.

(e) Bird in Hand Gold Royalty – South Australia

Maximus retains entitlement to two contingent \$1 million payments plus a gold production royalty in respect of the Bird in Hand Gold Project (**BIHGP**) with Terramin Australia Limited (**Terramin**).

The first payment is due upon the environmental approval to mine from the South Australian Department for Energy and Mining, and the second payment is payable on the commencement of bullion production from the site.

Maximus also retains a 0.5% gross royalty on gold produced in excess of 50,000 ounces mined. The BIHGP has an MRE of 588,000 tonnes at 13.3g/t for 252,000 ounces of gold.

(f) Canegrass Vanadium Project – Western Australia

Maximus is entitled to a 2% net smelter return for all minerals produced from the Canegrass Project. Discovered by Maximus, the Canegrass Project is located in the Murchison region, ~620km north-east of Perth and contains an MRE of 146Mt at 0.70% V₂O₅, 31.8% Fe & 6.6% TiO₂.

6 INFORMATION ABOUT THE COMBINED GROUP

6.1 Introduction

This section 6 provides a description of the effect of the Offer on the Astral Group and a profile of the Combined Group, assuming that Maximus becomes a wholly-owned subsidiary of Astral.

6.2 Overview of the Combined Group

The Combined Group offers Maximus Shareholders who accept the Offer, exposure to the Astral Group's key attributes:

- **Financial Strength:** Strong balance sheet with Astral having a 31 December 2024 cash position of approximately \$25.2 million and no debt as at the date of this Bidder's Statement. Despite Astral's proven capability of being able to raise equity capital (Astral successfully raised \$25 million in September 2024), Astral has no near-term capital raising requirements. Astral is fully funded to a final investment decision at Mandilla, including the acceleration of exploration activities at Mandilla and Feysville, and completion of the Mandilla Pre-Feasibility Study (**PFS**) and Definitive Feasibility Study (**DFS**).
- **Size, Scale and Market Relevance:** Pro-forma market capitalisation of around \$205 million and over 10 times the liquidity of Maximus based on recent trading prior to Initial Announcement Date. In addition, Astral expects the Combined Group to have strong institutional support from its existing register as well as significant broker coverage with Canaccord Genuity, Euroz Hartleys and Rawson Lewis all writing research on Astral during 2024.
- **Standalone Development Opportunity:** The Mandilla Gold Project is currently being progressed through Pre-Feasibility Study stage and Astral is fully funded to progress the Mandilla Gold Project through Definitive Feasibility Study stage to a final investment decision.

Astral's Mandilla Scoping Study (published 21 September 2023) supports 100kozpa of gold production for the first 7 years with 81% of the Mandilla Mineral Resource (approximately 1 million gold ounces) contained in one large open pit, the Theia Deposit – one of the largest undeveloped single pit gold deposits in Western Australia. Importantly, the Scoping Study did not contemplate any contribution from the Feysville Gold Project, nor did it contemplate any contribution from the Mandilla Gold Project's Iris Deposit, which contains 115koz of gold.

With an updated Mandilla MRE due in the March 2025 Quarter, coupled with the items listed above, there is significant confidence that the Mandilla PFS will demonstrate that Mandilla is a genuine standalone development opportunity.

- **Significant JORC Mineral Resource and Landholding:** Consolidation of the companies to result in initial combined Mineral Resources of 1.8 million ounces of gold with additional upside potential from established regional gold targets.

The Combined Group's consolidated Mineral Resources of 1.8 million ounces of gold, include 1.265 million ounces of gold from Astral's flagship Mandilla Gold Project, 196koz of gold from its nearby Feysville Gold Project and 335koz of gold from Maximus's Spargoville Gold Project. Refer to section 6.4.

At the time of successful completion of the transaction, the Combined Group will hold a dominant land position in the region, with approximately 169km² of primarily contiguous tenure.

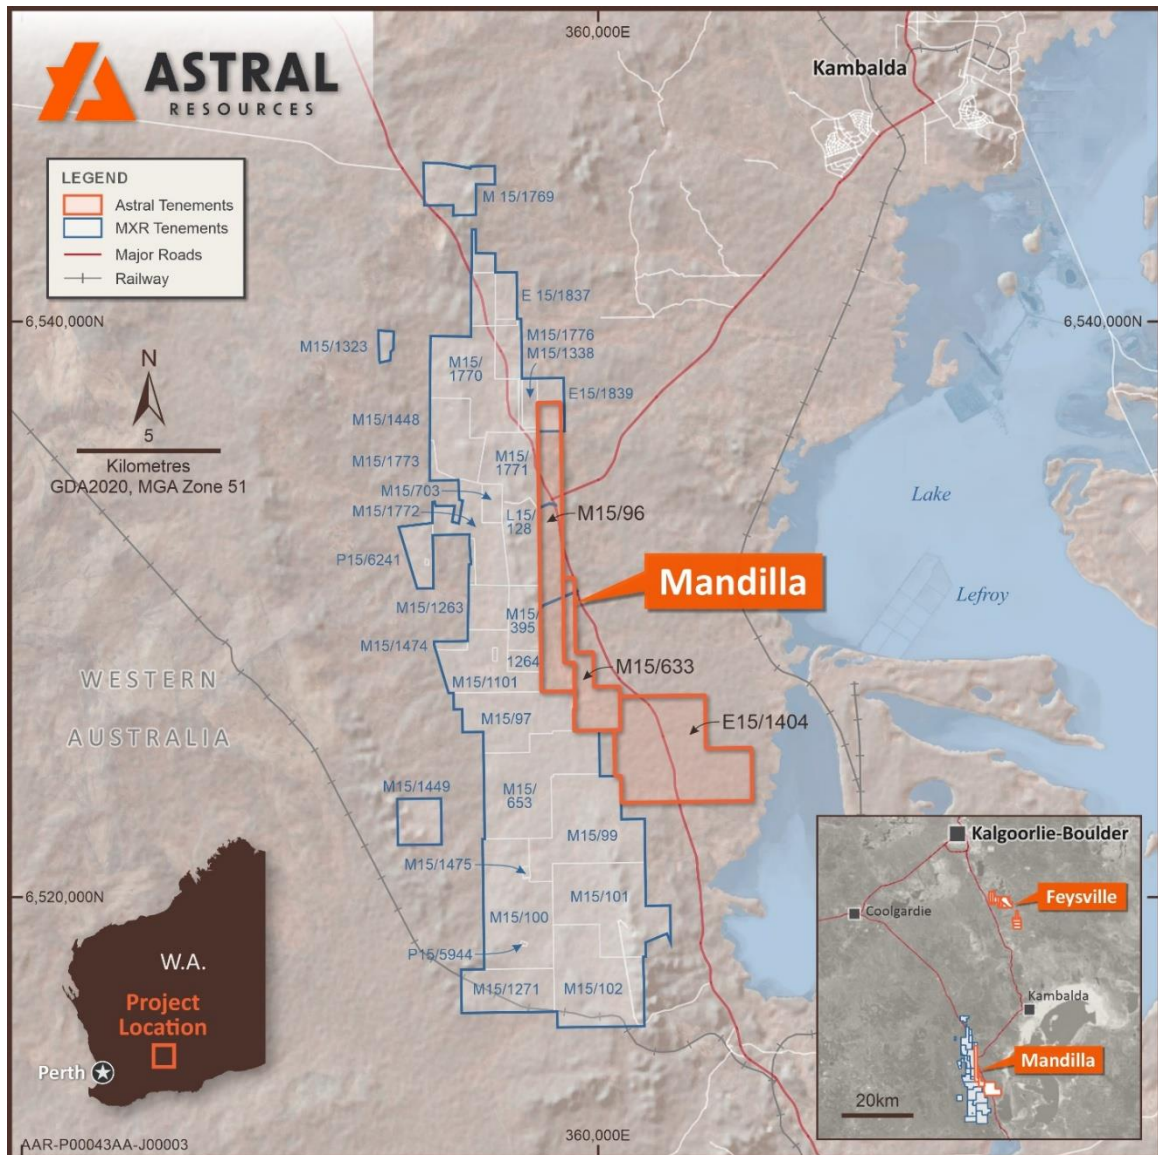

Figure 8: Astral and Maximus project locations.

- **Continued Exposure to Maximus' Portfolio:** Continued exposure to Maximus' asset portfolio, including the Spargoville Project and its lithium and nickel interests.

Given the Combined Group will have a pro-forma cash position of around \$26 million at completion, the Combined Group will have the financial capability and optionality to more aggressively explore Maximus' established gold targets, conduct extensional drilling on existing deposits and conduct infill drilling programs to enhance the confidence levels of the existing Maximus Mineral Resource. Furthermore, the Combined Group will likely provide a development pathway for Maximus' established gold targets and existing Mineral Resource ounces given Astral's intention to build a processing plant.

6.3 General operational review

Following completion of the compulsory acquisition process, Astral intends to undertake a more detailed and broad-based review of Maximus's assets, strategy and operations in light of the more detailed information that will be available to it.

6.4 Effect of the Offer on the Combined Group's Mineral Resources

As described in this Bidder's Statement, Astral has total reported Mineral Resources of 42Mt at 1.1g/t Au for 1.46 million ounces of gold²¹. This includes Mineral Resources of 37Mt at 1.1g/t Au for

²¹ AAR ASX Announcement – 1 November 2024 – Group MRE Increases to 1.46Moz With Updated Feysville MRE

1.27Moz of contained gold for the Mandilla Gold Project²² and 5Mt at 1.2g/t Au for 196koz of contained gold for the Feysville Gold Project.²³

Maximus has total reported Mineral Resources of 6.9Mt at 1.5g/t Au for 335koz of contained gold across multiple deposits at its Spargoville Gold Project.²⁴

Through a simple addition of Astral's Mineral Resources at Mandilla and Feysville with Maximus's Mineral Resources at Spargoville gives combined Mineral Resources of approximately 48.9Mt at 1.1g/t Au for 1.8 million ounces of gold.

It should be noted that Astral intends to review the Maximus Mineral Resources in due course, with a view to harmonise the estimation practices and assumptions used at Mandilla and Feysville. This could lead to a change in the Maximus Mineral Resources.

6.5 Capital structure of the Combined Group

Under the Offer, Astral is offering to acquire all of the Maximus Shares on issue from Maximus Shareholders (excluding Ineligible Foreign Shareholders and Small Parcel Shareholders). Astral has the capacity to issue the maximum number of Astral shares that it may be required to issue under the Offer as Offer Consideration. No shareholder approvals or third party consents are required for the issue of the Astral Shares.

The effect of the Offer on the capital structure of Astral on a post-completion basis is set out in the table below:

Notes to pro-forma financial information for the Combined Group table:

1. Astral pro forma

The Astral pro forma amounts are the summation of the audited statement of financial position to 30 June 2024 and the unaudited subsequent events for the half year to 31 December 2024.

2. Transaction Entry

Includes the recognition of further investment in Maximus as a subsidiary of Astral. Consideration is calculated from the issue of 174,272,473 Astral Shares at \$0.145 per share. Assumes that all of the Maximus Options are cancelled for cash using the Hull-White Financial Accounting Model valuation methodology for cash consideration of \$308,000 in total. Total transaction costs are expected to total \$2.8 million (inclusive of the cash consideration paid for Maximus Options). Transaction costs of \$1.45 million are expected to be settled in cash upfront, with an estimate of \$1.36 million for stamp duty being shown as a current liability.

3. Consolidation Entry

Elimination of the investment in Maximus as a subsidiary of Astral, with the uplift in net assets being disclosed as an exploration and evaluation asset.

6.8 **Forecast financial information for the Combined Group**

Astral has given consideration as to whether a reasonable basis exists to produce reliable and meaningful information in relation to the Combined Group and has concluded that a reasonable basis does not exist for producing forecasts that would be sufficiently meaningful and reliable. Astral is currently in the process of completing a Pre-Feasibility Study for the Mandilla Gold Project. At this point in time a reasonable basis not exist for forecasting the potential impact to production and cost guidance from the addition of the Maximus assets.

7 RISK FACTORS

7.1 Overview of risk factors

If the Offer becomes unconditional, Maximus Shareholders who accept the Offer will become Astral Shareholders, and Astral will acquire an interest in Maximus.

In that event, Maximus Shareholders will continue to be indirectly exposed to the risks associated with having an interest in Maximus. A number of risks and uncertainties, which are both specific to Astral and the Combined Group and of a more general nature, may affect the future operating and financial performance of the Combined Group and the value of Astral Shares. There are also additional risks relating to the Offer and the Combined Group, to which Maximus Shareholders will be exposed through their holding of Maximus Shares. There are also numerous widespread risks associated with investing in the share market generally as well as specific risks associated with Astral's business. These risk factors are largely beyond the control of Astral and its Directors because of the nature of Astral's business. The following summary, which is not exhaustive, represents some of the major risk factors which potential investors need to be aware of.

This section does not take into account the investment objectives, financial situation, position or particular needs of Maximus Shareholders. You should carefully consider the following risk factors, as well as the other information provided by Astral, and consult your financial and legal advisers before making a decision as to whether to accept the Offer.

7.2 Risks relating to the Offer

(a) Issue of Astral Shares as consideration

Maximus Shareholders are being offered specified number of Astral Shares as consideration under the Offer, rather than a number of Astral Shares with a specified market value. Therefore, the value of the consideration will fluctuate depending on the market value of Astral Shares.

(b) Risks associated with retention of a minority stake

There are some risks associated with the Offer for Maximus Shareholders who do not accept the Offer and remain as Maximus Shareholders. If, in connection with or following the Offer, Astral acquires between 90% and 100% of Maximus Shares, Astral may be entitled to compulsorily acquire the remaining shares of Maximus Shareholders and intends to do so. In addition, Astral also intends to remove Maximus from the official list of ASX.

If, in connection with the Offer, Astral acquired more than 50.1% but less than 90% of the Maximus Shares, Astral will hold a controlling interest in Maximus. The remaining Maximus Shareholders will be in a minority position in a company with a large controlling shareholder whose objectives for the company may differ from their own. They could also encounter a lower level of liquidity in Maximus Shares than the current level of liquidity, which could affect the future price of Maximus Shares. If Astral acquires 75% of Maximus Shares, Astral may be entitled to apply for the removal of Maximus from the official list of ASX.

If, following the Offer, Astral does not acquire at least 50.1% of Maximus Shares, it may choose to waive the minimum acceptance condition of its Offer and hold a non-controlling interest in Maximus. There is a risk that Astral and other Maximus Shareholders hold large minority interests in Maximus, which could impact on the efficiency and effectiveness of the governance of Maximus and adversely affect the ongoing performance of Maximus in general.

(c) Potential inability to rely of CGT scrip-for-scrip roll-over relief

There is a risk that Astral may not obtain at least 80% of Maximus Shares under the Offer. Therefore, Maximus Shareholders who accept the Offer and receive Astral Shares may not be able to elect the CGT scrip-for scrip roll-over relief in respect for Astral Shares received in exchange for the Maximus Shares. Refer to Section 10 for a summary of the general Australian income tax, stamp duty and GST implications arising from the acceptance of the Offer.

Maximus Shareholders are encouraged to seek independent tax advice with respect to the tax consequences of the Offer, including the application and effect of income tax and other tax laws applicable to their particular circumstances.

7.3 Specific risks relating to Astral and the Combined Group

(a) Exploration and development risks

The Combined Group's business will continue to be resource exploration and development. Resource exploration and development involves significant risks which only occasionally provide high rewards. In addition to the normal competition for prospective ground, and the high costs of discovery and development of an economic deposit, factors such as demand for commodities, stock market fluctuations affecting access to new capital, sovereign risk, environmental issues, labour disruption, project financing, foreign currency fluctuations and technical problems all affect the ability of a company to profit from a discovery.

There is no assurance that exploration and development of the Combined Group's projects, will result in the discovery of an economic mineral deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be profitably exploited.

The exploration for, and development of, mineral deposits involves a high degree of risk. Few properties which are explored are ultimately developed into producing mines. Resource exploration and development is a speculative business, characterised by a number of significant risks, including, among other things, unprofitable efforts resulting not only from the failure to discover mineral deposits, but also from finding mineral deposits that, although present, are insufficient in quantity and quality to return a profit from production. The marketability of minerals acquired or discovered by Astral may be affected by numerous factors that are beyond the control of Astral and that cannot be accurately predicted, such as market fluctuations, the proximity and capacity of milling facilities, mineral markets and processing equipment, and such other factors as government regulations, including regulations relating to royalties, allowable production, importing and exporting of minerals, and environmental protection, the combination of which factors may result in Astral not receiving an adequate return on investment capital.

Whether a mineral deposit will be commercially viable depends on a number of factors, which include, without limitation, the particular attributes of the deposit, such as size, grade and proximity to infrastructure, metal prices, which fluctuate widely, and government regulations, including, without limitation, regulations relating to prices, taxes, royalties, land tenure, land use, importing and exporting of minerals and environmental protection. The combination of these factors may result in Astral expending significant resources (financial and otherwise) on a property without receiving a return. There is no certainty that expenditures made by Astral towards the search and evaluation of mineral deposits will result in the discovery of an economically viable mineral deposit.

There is no guarantee that the Combined Group's projects, including the Mandilla Gold Project, Feysville Gold Project, Spargoville Project, Lefroy Lithium Project and Larkinville Lithium Project will be developed. The continued success of activities and development of the projects are dependent on many factors such as:

- (i) the discovery and/or acquisition of economically recoverable reserves;
- (ii) access to adequate capital for project development;
- (iii) securing and maintaining title to tenements;
- (iv) obtaining regulatory consents and approvals necessary to conduct mineral exploration, development and production;
- (v) securing plant and equipment; and
- (vi) access to competent operational management (including the availability and reliability of appropriately skilled and experienced employees, contractors and consultants).

Astral has relied on, and may continue to rely on, consultants for mineral exploration and exploitation expertise. Astral believes that those consultants are competent and that they have carried out their work in accordance with internationally recognised industry standards. However, if the work conducted by the consultants is ultimately found to be incorrect or inadequate in any material respect, the Combined Group may experience delays or increased costs in developing its properties.

There can be no assurance that the Combined Group's mineral exploration activities will be successful. If commercial viability is never attained, the Combined Group may seek to transfer its property interests or otherwise realise value or may even be required to close its business and fail as a "going concern"

(b) **Operating risk**

The Combined Group's assets and mining operations may be affected by various factors which are beyond the control of the Combined Group, including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration or mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions (including climate change), industrial and environmental accidents, industrial disputes and unexpected shortages, delays in procuring, or increases in the costs of consumables, spare parts, plant and equipment, fire, explosions and other incidents beyond the control of Astral.

These risks and hazards could also result in damage to, or destruction of, production facilities, personal injury, environmental damage, business interruption, monetary losses and possible legal liability. While Astral currently intends to maintain insurance within ranges of coverage consistent with industry practice, no assurance can be given that the Combined Group will be able to obtain such insurance coverage at reasonable rates (or at all), or that any coverage it obtains will be adequate and available to cover any such claims.

(c) **Mineral Resources estimation risk**

Mineral Resources estimates are expressions of judgement based on drilling results, past experience with mining properties, knowledge, experience, industry practice and many other factors. Estimates which are valid when initially made may change substantially when new information becomes available.

The actual quality and characteristics of ore deposits cannot be known until mining takes place and will most likely differ from the assumptions used to develop Mineral Resources. The actual Mineral Resources may differ from those estimated, which may result in either a positive or negative effect on operations.

Should the Combined Group's projects encounter mineralisation or formations different from those predicted by past drilling, sampling and similar examinations, Mineral Resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Combined Group's operations.

(d) **Result of studies**

Subject to the results of exploration and testing programs, Astral may progressively undertake a number of studies in respect to the Combined Group's projects. These studies may include a scoping study, a PFS or a DFS.

These studies will be completed within certain parameters designed to determine the economic feasibility of the relevant project within certain limits. There can be no guarantee that any of the studies will confirm the economic viability of the Combined Group's projects or the results of other studies undertaken by Astral (e.g. the results of a PFS or DFS may materially differ to the results of a scoping study).

Further, even if a study determines the economics of the Combined Group's projects, there can be no guarantee that the projects will be successfully brought into production as assumed or within the estimated parameters in the feasibility study, once production

commences including but not limited to operating costs, mineral recoveries and commodity prices.

(e) **Tenure**

Mining and exploration tenements for the Combined Group's projects are subject to periodic renewal. There is no guarantee that current or future tenements and/or applications for tenements will be approved.

The tenements comprising the Combined Group's projects are subject to the Mining Act and Mining Regulations. The renewal of the term of a granted tenement is also subject to the discretion of the Minister for Mines, the Combined Group's ability to meet the conditions imposed by relevant authorities including compliance with the Combined Group's work program requirements which, in turn, is dependent on the Combined Group being sufficiently funded to meet those expenditure requirements. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements comprising the Combined Group's projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Combined Group.

Although Astral has no reason to think that the Combined Group's project tenements will not be renewed, there is no assurance that such renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed by the relevant granting authority. The Combined Group considers the likelihood of tenure forfeiture to be low given the laws and regulations governing exploration in Western Australia and the ongoing expenditure budgeted for by the Combined Group. However, the consequence of forfeiture or involuntary surrender of a granted tenement for reasons beyond the control of the Combined Group could be significant.

(f) **Funding risks and capital requirements**

Astral is fully funded to a final investment decision for the Mandilla Gold Project. However, a review of the Combined Groups business and operations may result in additional funding requirement depending on multiple factors including (without limitation) future exploration and work programs and commodity prices.

The additional funding may be raised through debt or equity funding. If required funding is not available, including because appropriate commercial terms cannot be negotiated, this may limit the capacity of the Combined Group to execute on its business strategy and exploration programs.

Additional equity funding, if available, may be dilutive to Astral Shareholders and at lower prices than the current market price. Debt funding, if available, may involve restrictions on financing and operating activities and be subject to risks relating to movements in interest rates. Increases in interest rates will make it more expensive for the Combined Group to fund its operations and may constrain the ability to execute on business strategies and exploration programs.

(g) **No recent history of earnings and no production revenues**

There can be no assurance that exploration of the Combined Group's projects will result in the discovery of any economic deposits.

Astral has limited operating history on which it can base the evaluation of its prospects. Astral's success in the short to medium term is dependent upon a number of factors, including the successful exploration of the Combined Group's current projects.

No projects of the Combined Group have commenced mining operations. Therefore, there can be no guarantee that the business will operate in line with assumed cost structures. Should the level of costs required to operate the business be higher than anticipated then it may have a materially adverse effect on the future performance and prospects of Astral. Further, the Combined Group's operating expenses and capital expenditures may increase in subsequent years associated with advancing exploration, development and commercial production.

Astral expects to continue to incur losses unless and until such time as its projects enter into commercial production and generates sufficient revenue to fund its continuing operations. The development of the Combined Group's projects will require the commitment of substantial resources.

The Combined Group's ability to generate revenue will depend on the Company being successful in exploring, identifying mineral resources and establishing mining operations in relation to its projects.

(h) **Access and third-party interests**

The Combined Group may be required to obtain consents from the holders of third-party interests which overlay areas within its tenements, prior to accessing or commencing any exploration or mining activities on the affected areas. The Combined Group's existing tenements and mineral rights are in areas that have been subject to exploration activities by third parties. Given the history of these areas and third party interest, there is a risk that exploration and mining activities in these areas may require consents or approvals to be obtained from third parties.

(i) **Potential acquisitions and associated risks**

Astral may make acquisitions in the future as part of its future growth plans. In this regard, the Directors will use their expertise and experience in the resources sector to assess the value of potential projects which may increase shareholder value.

Any future transactions will be accompanied by risks commonly encountered in the acquisitions of resource projects, including due diligence risks, execution risks, dilution risks or credit risks. Further, there can be no guarantee that any new project acquisition or investment will result in growth or that any acquisitions will result in a return for Astral Shareholders.

(j) **Commodity price risk and exchange rate risk**

Commodity prices have fluctuated widely in recent years and may continue to fluctuate significantly in the future. Fluctuations in commodity prices, and, in particular, a material decline in the price of commodities, may have a material adverse effect on the Combined Group's business, financial condition and results of operations.

Fluctuation of commodity prices are affected by numerous factors beyond the control of the Combined Group, such as industrial and retail supply and demand, exchange rates, inflation rates, changes in global economies, confidence in the global monetary scheme, forward sales of metals by producers and speculators as well as other global or regional political, social or economic events. The supply of these resources consists of a combination of new mine production and existing stocks held by governments, producers, speculators and consumers.

Future production, if any, from the Combined Group's projects will be dependent upon the price of the resources being adequate to make the project economic. Future price declines in the market value of the commodity could cause continued development of, and eventually commercial production from, the project to be rendered uneconomic. Depending on the price of the commodity, the Combined Group could be forced to discontinue production or development and may lose its interest in, or may be forced to sell, the project. There is no assurance that, even if commercial quantities of the resource are produced, a profitable market will exist for them.

In addition to adversely affecting future reserve estimates, if any, of any project, declining commodity prices can impact operations by requiring a reassessment of the feasibility of the project. Such a reassessment may be the result of a management decision or may be required under financing arrangements related to the project. Even if the project is ultimately determined to be economically viable, the need to conduct such a reassessment may cause substantial delays or may interrupt operations until the reassessment can be completed.

(k) Liquidity risk

Liquidity risk arises from the possibility that the Combined Group might encounter difficulty in settling its debts or otherwise meeting its financial liabilities obligations.

(l) Climate change risk

Climate change is a risk that Astral has considered, and will continue to consider, particularly in relation to the Combined Group's operations in the mining industry. As at the date of this Bidder's Statement, climate change risks particularly attributable to Astral include:

- (i) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. Astral may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact Astral and its profitability. While Astral will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that Astral will not be impacted by these occurrences; and
- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by Astral, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which Astral operates.

(m) Reliance on key personnel

The Combined Group's success depends on the continued services of Astral's key personnel. Astral is reliant on a small number of key personnel and consultants. The loss of one or more of these key contributors could have an adverse impact on the business including the Combined Group's projects.

It may be particularly difficult for the Combined Group to attract and retain suitably qualified and experienced people, given the current high demand in the industry and relatively size of the Combined Group, compared to other industry participants.

The continued availability of consultants and advisers is to some extent dependent on maintaining the professional relationships that the Combined Group's personnel have developed over time and which may be lost if key personnel cease to be involved with the Combined Group before replacement arrangements can be made. If the involvement of key resource specialists, managers or other personnel ceases for reasons of contract termination, ill health, death or disability, then technical programs and achievements may be adversely affected.

(n) Joint venture parties, agents and contractors

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which the Combined Group is or may become party to, or the insolvency or managerial failure by any of the contractors or other service providers used by the Combined Group, which may adversely the Combined Group's activities.

(o) Environmental risk

The Combined Group's projects are subject to state and federal laws and regulations regarding environmental matters. The administration and enforcement of environmental laws and regulations are determined by the government and authorities and over the years, have generally become more restrictive. As with all exploration projects and mining operations, the Combined Group's activities are expected to have an impact on the environment, particularly, if the Combined Group's activities result in mine development.

The cost and complexity of complying with applicable environmental laws and regulations may prevent the Combined Group from being able to develop economically viable mineral deposits.

Further, the Combined Group may require additional approvals from the relevant authorities before it can undertake activities that are likely to impact the environment. Failure to obtain such approvals will prevent the Combined Group from undertaking its desired activities. Changes to environmental laws and regulations cannot be predicted and the impact of those changes on the activities of the Combined Group cannot be ascertained, including whether additional costs will be incurred to comply with those changes.

There can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Combined Group to incur significant expenses and undertake significant investments which could have a material adverse effect on the Combined Group's business, financial condition and results of operations.

(p) **Laws, regulations, rules, approvals, licenses and permits**

The Combined Group's operations will be subject to various Federal, State and local laws and plans, including those relating to mining, prospecting, development permit and licence requirements, industrial relations, environment, land use, royalties, water, native title and cultural heritage, mine safety and occupational health. No assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could limit or curtail exploration, production or development.

There can be no assurances that the Combined Group will be successful in obtaining any or all of the various approvals, licenses and permits or maintaining such authorisations in full force and effect without modification or revocation.

(q) **Native title and Aboriginal heritage**

The *Native Title Act 1993* (Cth) (**Native Title Act**) recognises and protects the rights and interests in Australia of Aboriginal and Torres Strait Islander people in land and waters, according to their traditional laws and customs. There is significant uncertainty associated with native title in Australia and this may impact on the Combined Group's operations and future plans.

Native title can be extinguished by valid grants of land (such as freehold title) or waters to people other than the native title holders or by valid use of land or waters. It can also be extinguished if the indigenous group has lost its connection with the relevant land or waters. Native title is not necessarily extinguished by the grant of mining leases, although a valid mining lease prevails over native title to the extent of any inconsistency for the duration of the title.

Tenements granted before 1 January 1994 are valid or validated by the Native Title Act.

For tenements to be validly granted (or renewed) after 1 January 1994, the future act regime established by the Native Title Act must be complied with.

The existence of a native title claim is not an indication that native title in fact exists on the land covered by the claim, as this is a matter ultimately determined by the Federal Court. The lack of a native title claim is not an indication that native title does not exist on the land which is not currently the subject of a claim.

The Combined Group must also comply with Aboriginal heritage legislation requirements, which may require certain due diligence investigations to be undertaken ahead of the commencement of exploration and mining. This due diligence may include, in certain circumstances, the conduct of Aboriginal heritage surveys. The Combined Group's assets are located in Western Australia and therefore, the Combined Group's activities are subject to the *Heritage Act 1972* (WA) (as amended from time to time).

(r) Litigation risk

The Combined Group will be exposed to possible litigation risks including native title claims, tenure disputes, disputes in relation to the interpretation of royalty agreements or other entitlements, environmental claims, occupational health and safety claims and employee claims. Further, the Combined Group may be involved in disputes with other parties now or in the future which may result in litigation or other forms of dispute resolution procedure.

Defence and settlement costs of legal claims can be substantial. Given the inherent uncertainty of the litigation process, the resolution of any particular legal proceeding to which the Combined Group is, or may become, a party could have material effect on the Combined Group's financial position, operation results and project development.

(s) Insurance coverage risk

Insurance of all risks associated with resource exploration and production is not available and where available, the cost may be high. Astral has, or will have, insurance in place considered appropriate for the Combined Group's needs.

The business of the Combined Group is subject to a number of risks and hazards generally, including adverse environmental conditions, industrial accidents, labour disputes, unusual or unexpected geological conditions, ground or slope failures, cave-ins, changes in the regulatory environment and natural phenomena such as inclement weather conditions, floods and earthquakes. Such occurrences could result in damage to mineral properties or production facilities, personal injury or death, environmental damage to properties of the Combined Group or others, delays in mining, monetary losses and possible legal liability.

Although Astral maintains, or will maintain, insurance to protect against certain risks in such amounts as it considers to be reasonable, its insurance will not cover all potential risks associated with its operations and insurance coverage may not continue to be available or may not be adequate to cover any resulting liability.

It is not always possible to obtain insurance against all such risks and the Combined Group may decide not to insure against certain risks because of high premiums or other reasons. Moreover, insurance against risks such as environmental pollution or other hazards as a result of exploration and production is not generally available to the Combined Group or to other companies in the mining industry on acceptable terms. Losses from these events may cause the Combined Group to incur significant costs that could have a material adverse effect upon its financial performance and results of operations.

(t) Equipment access

High local, regional or global demand for exploration and development equipment and infrastructure (as currently experienced globally) and experienced operators of this equipment may adversely affect the Combined Group's operations. The Combined Group may not always have access to experienced crews, drill rigs, and operators and this may cause delays in the Combined Group's exploration and development programs, which may result in increased costs in relation to the Combined Group's projects.

7.4 General risks**(a) Economic risks**

The operating and financial performance of the Combined Group may be affected by changes in Australian or international economic conditions. The following factors may affect the financial position of the Combined Group, the ability of the Combined Group to acquire new investments or realise existing investments and the terms and availability of funding that the Combined Group may require:

- (i) general economic conditions;
- (ii) changes in government policies, taxation and other laws;
- (iii) the strength of equity and share markets in Australia and throughout the world;

- (iv) movement in, or outlook on, exchange rates, interest rates and inflation rates;
- (v) industrial disputes in Australia and overseas;
- (vi) changes in investor sentiment toward particular market sectors;
- (vii) financial failure or default by an entity with which the Combined Group may become involved in a contractual relationship; and
- (viii) natural disasters, social upheaval or war.

(b) **Market conditions**

There are risks associated with an investment in securities that are listed on a stock exchange. Price movements of securities can affect the value of an investment.

The price at which listed Astral Shares trade, and which affects the value of an investment, can be expected to fluctuate and be affected by a number of factors. These factors include, for example, changes in economic conditions, acts of terrorism, share market conditions, inflation, interest rates, government regulation, fiscal and monetary policy changes and investor perceptions. The impact of these risk factors can be unpredictable and may have an impact on the price of Astral Shares that is unrelated or disproportionate to the operating performance of the Combined Group.

(c) **Equity dilution**

Astral may issue Astral Shares or other securities in Astral in the future. While the issue of any securities will be subject to the ASX Listing Rules, the increase in the number of securities issued and the possible sale of these securities may have adverse effect on the price of existing Astral securities. Further issue of Astral securities may dilute the holdings of Astral Shareholders.

(d) **Taxation**

Changes in tax law (including value added tax, indirect taxes or stamp duties), or changes in the interpretation of applicable tax laws, may impact the Combined Group's tax liabilities or the tax treatment of Astral shareholder's investment.

Further, The acquisition and disposal of Astral Shares will have tax consequences which may differ for each shareholder. Each Maximus Shareholder is encouraged to obtain professional tax advice in connection with the Offer.

(e) **Force majeure**

Events may occur within or outside Australia that could have an impact on the Australian economy, the Combined Group's operations and the price of Astral Shares. These events include (but not limited to) acts of terrorism, an outbreak of international hostilities, natural disaster, or other occurrences which can have an adverse effect on the operation of the Combined Group.

(f) **Litigation**

As at the date of this Bidder's Statement, Astral is not aware of any material disputes or litigation being undertaken. However, the Combined Group is exposed to possible litigation risks including contractual disputes, occupational health and safety claims and employee claims. Costly disputes or litigation and compensation or damages could adversely impact the financial position or performance of the Combined Group.

7.5 **Speculative nature of investment**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Combined Group or by investors in Astral. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Combined Group and the value of Astral Shares.

8 ASTRAL'S INTENTIONS FOR MAXIMUS

8.1 Introduction

This Section 8 sets out Astral's intentions for Maximus, which are based on the information concerning Maximus and its business known to Astral at the time of preparation of this Bidder's Statement, in relation to:

- (a) the future business of Maximus;
- (b) any major changes to be made to the business of Maximus and any redeployment of the fixed assets of Maximus;
- (c) the compulsory acquisition of Maximus Shares; and
- (d) the future employment of the present employees of Maximus.

These intentions are based on the basis of facts, information and circumstances concerning Maximus, its business operations and the general industry environment, which are known to Astral at the time of preparing this Bidder's Statement. Final decisions on these matters have not been made and will only be reached in the light of all material facts and circumstances at the relevant time, including once Astral has had an opportunity to conduct a review of Maximus's operations and assets as referred to below. Accordingly, the statements set out in this section are statements of current intentions only, which may vary as new information becomes available or circumstances change.

8.2 Intentions upon acquiring 50.1% or more but less than 90% of Maximus Shares

This section describes Astral's intentions if it were to acquire a Relevant Interest in at least 50.1% but less than 90% of Maximus Shares on issue.

(a) Directors

If Astral acquires a Relevant Interest in 50.1% or more Maximus Shares and the Offer is declared or becomes Unconditional, on request from Astral, Astral and Maximus have agreed:

- (i) that the Maximus Board will have three Directors; and
- (ii) to procure the appointment of persons nominated by the Bidder in writing to be directors of Maximus (subject to each proposed appointee having provided a consent to act as a director) and resignations from Maximus Directors, such that a majority of the directors of Maximus are directors nominated by Astral.

If Astral acquires a Relevant Interest in more than 50.1% but less than 90% of Maximus Shares, for so long as Astral has a Relevant Interest in more than 50.1% but less than 90% of Maximus Shares on issue, the Parties agree that the Maximus Board should include at least one independent director.

On and from the date that Astral acquires a Relevant Interest in 90% or more of all Maximus Shares and the Offer is declared or becomes unconditional, Maximus must procure that each member of the Maximus Board and the board of each Subsidiary of Maximus, other than those appointed in accordance with Section 8.2(a)(ii), resigns as a director of Maximus or the relevant Subsidiary of Maximus such that all directors of the Maximus Group are directors nominated by Astral.

(b) General strategic and operational review

Should Astral acquire Control of Maximus, it intends to ask the Maximus Board to undertake a detailed review of Maximus's assets, strategy and operations consistent with that outlined in Section 8.3. However, as a result of Maximus not being a wholly-owned subsidiary of

Astral, Astral's ability to implement changes to Maximus's operations will be limited and it is unlikely that the full potential benefits will be realised.

(c) **ASX Listing**

If Astral acquires a Relevant Interest in at least 75% of Maximus Shares, Astral intends to make an application to remove Maximus from the official list of ASX.

8.3 **Further intentions upon acquiring 90% or more of Maximus Shares**

In addition to the intentions described in Section 8.2 above, this section sets out Astral's further intentions if it were to acquire a Relevant Interest in 90% or more of Maximus Shares.

(a) **Compulsory acquisition at end of Offer Period or a later time**

If it becomes entitled to do so under the Corporations Act, Astral may compulsorily acquire any outstanding Maximus Shares.

It is possible that even if Astral is not entitled to or required to proceed to compulsory acquisition of minority holdings after the end of the Offer Period under Part 6A.1 of the Corporations Act, it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act; for example, as a result of acquisitions of Maximus Shares in reliance on the "3% creep" exception in item 9 of section 611 of the Corporations Act. If so, Astral may exercise those rights.

(b) **ASX Listing**

If a compulsory acquisition process is undertaken, Astral would procure the removal of Maximus from the official list of ASX.

(c) **Maximus Board Composition**

On and from the date that Astral acquires a Relevant Interest in 90% or more Maximus Shares and the Offer is declared or becomes unconditional, Maximus must procure that each member of the Maximus Board and the board of each Subsidiary of Maximus, other than those appointed in accordance with Section 8.2(a)(ii), resigns as a director of Maximus or the relevant Subsidiary of Maximus such that all directors of the Maximus Group are directors nominated by Astral.

(d) **General operational review**

Following completion of the compulsory acquisition process, Astral intends to undertake a more detailed and broad-based review of Maximus's assets, strategy and operations in the light of the more detailed information then available to it. Astral current expectation is that the review will focus on:

- (i) Maximus's asset portfolio, including identification of core and potentially non-core assets;
- (ii) integration of management operating systems, administrative procedures, systems and reporting lines, the intention being to bring these into line with Astral Group's current operations, standards and practises and to optimise operating costs;
- (iii) potential synergies and cost savings, including overheads, insurances, professional advisory fees and other synergistic operational costs; and
- (iv) Maximus's current financing arrangements and future funding requirements to determine the optimal capital structure. Maximus's need for additional capital, either in the form of debt or equity will be assessed, including Astral Group's ability to provide Maximus with such capital.

The outcome of this review may result in changes to the structure of the operating businesses, including changes to the way the businesses are managed or operated, changes to the number of employees and the possible divestment of assets or businesses.

(e) Project development

Astral continues to progress the Mandilla PFS, which remains on target to be completed during the June 2025 quarter. The Mandilla PFS will outline the development timetable, cost profile and financial outcome from the Mandilla Gold Project, with satellite ore being contributed from Astral's nearby Feysville Gold Project.

It is not currently anticipated that the Mandilla PFS will include the mining or processing of ore from the Maximus tenements.

As noted in section 6.4, Astral intends to review the Maximus Mineral Resources in due course, with a view to harmonise the estimation practices and assumptions used at Mandilla and Feysville. This could lead to a change in the Maximus Mineral Resources.

(f) Impact on management and employees

After the Offer Period, and as part of the general operational review described above, it is possible that job losses may occur associated with redundant functions such as, but not limited to, the activities associated with maintenance of an ASX listing and certain senior executive offices. The incidence, extent and timing of such job losses cannot be predicted in advance and will depend on the outcome of the strategic review. If redundancies do occur, Astral Group may seek to find new roles for such employees. If that is not feasible, the relevant employees will receive benefits in accordance with their contractual and other legal entitlements.

8.4 Intentions if Astral does not acquire 50.1% of Maximus Shares

This section sets out Astral's intentions if the Offer closes and Astral has not acquired a Relevant Interest in at least 50.1% of Maximus Shares on issue.

In that circumstance:

- Astral does not expect to be in a position to give effect to the intentions set out in Sections 8.2 or 8.3 of the Bidder's Statement; and
- Astral would have regard to the circumstances at the time and consider the appropriate courses of action that are in the best interests of Astral. If Astral does not acquire a Relevant Interest in 50.1% or more of Maximus Shares on issue, Astral may review its substantial shareholding in Maximus.

8.5 Limitations of intentions

The intentions and statements of future conduct set out in this Section 8 must be read as being subject to:

- (a) Maximus' constitution, the law (including the Corporations Act) and the ASX Listing Rules;
- (b) the outcome of reviews referred to in this Section 8; and
- (c) the legal obligation of the Maximus Directors at the time, including any candidates for the Maximus Board nominated by Astral, to act in good faith in the best interests of Maximus and for proper purpose and to have regard to the interests of all Maximus Shareholders.

9 CONSIDERATION

9.1 Offer Consideration

The consideration for the acquisition of the Maximus Shares to which the Offer relates will be satisfied by the issue of Astral Shares. Based on the number of Maximus Shares (and the number of Maximus Options and Maximus Performance Rights, which are convertible into Maximus Shares (refer to Section 6.5 and below)) on issue as at the Last Practicable Date, the maximum number of Astral Shares which would be required to be issued under the Offer if every Maximus Shareholder accepted the Offer is 181,272,473 Astral Shares.

The above figure assumes:

- (a) a maximum of 171,622,473 Astral Shares to be issued under the Offer;
- (b) a maximum of 2,650,000 Astral Shares to be issued in relation to Maximus Performance Rights assuming they have vested and been exercised prior to the end of the Offer Period; and
- (c) a maximum of 7,000,000 Astral Shares to be issued in relation to Maximus Options assuming they are all exercised prior to the end of the Offer Period.

Astral has the capacity to issue the maximum number of Astral Shares which it may be required to issue under the Offer. Astral intends to apply for the quotation of Astral Shares issued under the Offer on ASX within 7 days of the date of the Offer in accordance with the Corporations Act.

The Offer itself is not subject to any financing conditions.

On the basis of the arrangements described above, Astral believes that it has reasonable grounds for holding the view, and it does hold the view, that Astral will be able to provide the Offer Consideration.

10 TAXATION CONSIDERATIONS

10.1 Overview of tax considerations

This Section 10 contains a general description of the Australian income tax (including CGT) and GST and stamp duty consequences for Maximus Shareholders who either accept the Offer and dispose of their Maximus Shares to Astral, or whose Maximus Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act.

This Section 10 deals only with Maximus Shareholders who are individuals, companies (other than life insurance companies), trusts and complying superannuation funds that hold their Maximus Shares on capital account for Australian income tax purposes.

The comments outlined in this summary are not applicable to all Maximus Shareholders and in particular does not consider Maximus Shareholders who:

- hold their Maximus Shares for the purpose of speculation or a business of dealing in securities (e.g. as trading stock or revenue assets);
- are partnerships or individuals who are partners of such partnerships;
- acquired their Maximus Shares pursuant to an employee share, option or rights plan;
- are under a legal disability;
- are exempt from Australian income tax;
- are subject to the Investment Manager Regime under Subdivision 842-I of the Tax Act in respect of their Maximus Shares;
- are subject to the taxation of financial arrangement rules in Division 230 of the Tax Act in relation to gains and losses on their Maximus Shares; or
- are foreign residents of Australia who hold their Maximus Shares in carrying on a business through a permanent establishment in Australia.

The information in this Section 10 is based on the Australian tax law and administrative practice of the Australian tax authorities in effect as at the date of this Bidder's Statement. The laws are complex and subject to change periodically as is their interpretation by the courts and the tax authorities. This summary is general in nature and is not intended to be an authoritative or complete statement of the laws applicable to the particular circumstances of a Maximus Shareholder. The precise implications of ownership or disposal of Maximus Shares will depend on each Maximus Shareholder's specific circumstances. These comments should not be viewed as a substitute for advice from an appropriate professional advisor having regard to each Maximus Shareholder's individual circumstances.

Maximus Shareholders are urged to seek their own independent tax advice regarding the specific tax consequences of the Offer, including the application and effect of income tax and other tax laws to their particular circumstances.

This summary does not take into account the tax law of countries other than Australia. Maximus Shareholders who are tax residents of a country other than Australia (whether or not they are also residents, or are temporary residents, of Australia for tax purposes) should take into account the tax consequences of the Offer under the laws of their country of residence, as well as under Australian law, of acceptance of the Offer.

(a) To persons receiving this Bidder's Statement in Australia

The information contained in this Section 10 does not constitute "financial product advice" within the meaning of the Corporations Act. To the extent that this document contains any information about a "financial product" within the meaning of the Corporations Act, taxation

is only one of the matters that must be considered when making a decision about the relevant financial product. This material has been prepared for general circulation and does not take into account the objectives, financial situation or needs of any recipient. Accordingly, any recipient should, before acting on this material, consider taking advice from a person who is licensed to provide financial product advice under the Corporations Act.

Any recipient should, before acting on this material, also consider the appropriateness of this material having regard to their objectives, financial situation and needs and consider obtaining independent financial advice.

10.2 Australian resident Maximus Shareholders

This section applies to Maximus Shareholders who are residents of Australia for Australian income tax purposes and hold their Maximus Shares on capital account.

(a) CGT event on the disposal of Maximus Shares to Astral

If the Offer becomes unconditional, acceptance of the Offer by a Maximus Shareholder will result in the disposal of their Maximus Shares to Astral in exchange for Astral Shares. The disposal of the Maximus Shares to Astral will give rise to a CGT event for Maximus Shareholders. The timing of the CGT event is the date the contract is formed, this should be the date you accept the Offer.

If a Maximus Shareholder does not dispose of their Maximus Shares under the Offer and their Maximus Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act, those Maximus Shareholders will also be treated as having disposed of their Maximus Shares for CGT purposes. In this case, the timing of the CGT event should be the date when the Maximus Shareholder ceases to own their Maximus Shares.

In the absence of CGT roll-over relief (discussed below), the following tax consequences are expected to arise for the Maximus Shareholders that acquired (or are deemed to have acquired) their Maximus Shares on or after 20 September 1985:

- a capital gain will be realised to the extent the capital proceeds received by the Maximus Shareholder from the disposal of their Maximus Shares exceed the cost base of those shares; or
- a capital loss will be realised to the extent the capital proceeds received by the Maximus Shareholder from the disposal of their Maximus Shares are less than the reduced cost base of those shares.

Capital losses can only be offset against capital gains derived in the same income year or later income years. Specific loss recoupment rules apply to companies and trusts which must be satisfied if those carry forward tax losses are to be used in future years. Maximus Shareholders should seek their own tax advice in relation to the operation of these rules.

(b) Cost base and reduced cost base of a Maximus Share

The cost base of a Maximus Share will generally include the cost of acquiring that Maximus Share plus any incidental costs of their acquisition and disposal (such as brokerage fees and legal costs). The reduced cost base of the Maximus Shares is usually determined in a similar but not identical manner to the cost base although some differences in the calculation of reduced cost base do exist depending on the Maximus Shareholder's individual circumstances.

The cost base of Maximus Shares may be modified in certain circumstances. Maximus Shareholders should seek their own tax advice in relation to the operation of these rules.

(c) Capital proceeds received by Maximus Shareholders

The capital proceeds for the disposal of a Maximus Share should be equal to the Offer consideration receivable by the Maximus Shareholder. The capital proceeds should be equal to the market value of the Astral Shares received by the Maximus Shareholder, determined as at the time of the CGT event.

(d) CGT Discount

The CGT Discount may apply to Maximus Shareholders that are individuals, complying superannuation funds or trusts, who have held, or are taken to have held, their Maximus Shares for at least 12 months (not including the date of acquisition or the date of disposal) at the time of the disposal of their Maximus Shares to Astral.

The CGT Discount is:

- one-half if the Maximus Shareholder is an individual or trustee: meaning only 50% of the capital gain (without any allowance for indexation) will be included in assessable income; and
- one-third if the Maximus Shareholder is a trustee of a complying superannuation entity: meaning only two-thirds of the capital gain (without any allowance for indexation) will be included in assessable income.

The CGT Discount is not available to Maximus Shareholders that are companies or Maximus Shareholders who choose for indexation to apply (described above).

If the Maximus Shareholder makes a discounted capital gain, any current year and/or carried forward capital losses will be applied to reduce the undiscounted capital gain before the relevant CGT discount is applied. The resulting amount is then included in the Maximus Shareholder's net capital gain for the income year and included in assessable income.

The CGT Discount rules relating to trusts are complex. Accordingly, we recommend trustees seek their own independent advice on how the CGT Discount applies to them and the trust's relevant beneficiaries.

(e) CGT scrip for scrip roll-over

Maximus Shareholders who make a capital gain from the disposal of their Maximus Shares may be eligible to choose CGT scrip for scrip roll-over relief (provided certain conditions are met). Broadly, CGT scrip for scrip roll-over relief enables Maximus Shareholders to disregard the capital gain they make from the disposal of their Maximus Shares under the Scheme.

For CGT scrip for scrip roll-over relief to be available, Astral must become the owner of 80% or more of the shares in Maximus, the Maximus Shareholder must make a capital gain upon disposal of their Maximus Shares, and have acquired their Maximus Shares after 20 September 1985. If a capital loss arises, no CGT scrip for scrip roll-over relief is available.

Maximus Shareholders do not need to inform the Australian Taxation Office, or document their choice to claim CGT must make a choice, prior to or by the day they lodge their income tax return for the income year the CGT event happens. The choice is evidenced by the way in which Maximus Shareholders prepare their income tax return.

Astral will not make a choice under subsection 124-795(4) of the Tax Act to deny scrip for scrip roll-over relief (where it would otherwise be available).

If Astral does not obtain 80% or more of the Maximus Shares under the Offer, no Maximus Shareholder who disposes their Maximus Shares under the Offer will be eligible for CGT scrip for scrip roll-over relief and the general CGT consequences outlined above at Section 10.2(a) will apply.

(f) Consequences for choosing CGT scrip-for-scrip roll-over relief

If a Maximus Shareholder chooses to obtain CGT scrip-for-scrip roll-over relief, the capital gain arising on the disposal of their Maximus Shares under the Offer should be disregarded.

The first element of the cost base for their Astral Shares is then determined by attributing, on a reasonable basis, the existing cost base of the Maximus Shares exchanged under the Offer. The first element of the reduced cost base is determined similarly.

Finally, for the purposes of determining future eligibility for the CGT Discount, the acquisition date of the Astral Shares is taken to be the date when the Maximus Shareholder originally acquired their Maximus Shares.

(g) Consequences if CGT scrip-for-scrip roll-over relief is not available or is not chosen

If a Maximus Shareholder does not qualify for CGT scrip for scrip roll-over relief, the Maximus Shareholder chooses not to obtain CGT scrip-for-scrip roll-over relief or the Maximus Shareholder is a Small Parcel Shareholder whose Maximus Shares are sold in accordance with Section 12.7 of the Bidder's Statement, the general CGT treatment outlined at Section 10.2(a) will apply.

If a Maximus Shareholder makes a capital loss from the disposal of their Maximus Shares, this loss may be used to offset capital gains in the same or subsequent years of income (subject to satisfying certain conditions). The capital loss cannot be offset against ordinary income or carried back to offset net capital gains arising in earlier income years.

10.3 Foreign tax resident Maximus Shareholders

This section applies to Maximus Shareholders that are not residents of Australia for Australian income tax purposes (i.e. foreign tax residents) and hold their Maximus Shares on capital account. It does not apply to Maximus Shareholders who have held their Maximus Shares or at any time in carrying on a business at or through a permanent establishment in Australia.

Foreign tax resident Maximus Shareholders who hold their Maximus Shares on capital account should generally not be subject to the CGT rules in Australia on the disposal of their Maximus Shares, provided their Maximus Shares are not an "indirect Australian real property interest".

Any foreign tax resident Maximus Shareholders who, together with their associates, own 10% or more of Maximus Shares at the time of disposal or throughout a 12 months period during the 2 years preceding the disposal should seek independent professional advice in relation to their own particular circumstances.

Any foreign tax resident individual Maximus Shareholder who was previously a resident of Australia and chose to disregard a capital gain or capital loss upon ceasing to be an Australian tax resident will be subject to Australian CGT consequences on disposal of their Maximus Shares as set out in Section 10.2 above.

Broadly, a foreign tax resident Maximus Shareholder's Maximus Shares will not be an indirect Australian real property interest unless both of the following conditions are satisfied:

- that Maximus Shareholder, together with its associates (as defined under Australian taxation law, and broadly discussed below), held 10% or more of the issued shares in Maximus at the time of disposal or for at least 12 months during the 24 months prior to the disposal of their Maximus Shares; and
- the aggregate market value of Maximus's assets which are taxable Australia property (being direct and indirect interests in Australian real property, including land, leases of land mining tenements and property affixed to land) exceeds the aggregated market value of Maximus's assets which are not taxable Australian property.

The term "associate" for these purposes is very broad. It includes:

- entities that have majority ownership (50% or more of the voting shares) of, or otherwise control, the foreign tax resident Maximus Shareholder,
- entities which are majority owned or controlled by the foreign tax resident Maximus Shareholder,
- a trustee of a trust where the foreign tax resident Maximus Shareholder is capable of benefiting (whether directly or indirectly) under the trust, and
- (generally) an associate of an associate.

As at the date of this Bidder's Statement, Astral expects that the aggregate market value of Maximus's assets, which are taxable Australian property, exceeds the aggregate market value of Maximus's assets which are not taxable Australian property. Accordingly, any foreign tax resident Maximus Shareholder that holds, together with their associates, a 10% or more interest in Maximus Shares (at the time of disposal or for at least 12 months during the 24 months prior to disposal of their Maximus Shares) should be subject to Australian CGT.

Importantly, foreign tax resident Maximus Shareholders who, together with their associates, hold an interest of 10% or more in Maximus Shares (at the time of disposal or for at least 12 months during the 24 months prior to disposal of their Maximus Shares) may be able to access CGT scrip for scrip roll-over relief in respect of any capital gain realised on their Maximus Shares as a result of the Offer but only to the extent:

- the foreign tax resident Maximus Shareholders, together with their associates, also hold a 10% or more interest in Astral Shares just after the Offer is implemented; and
- the aggregate market value of Astral' assets, after the Offer is implemented which are taxable Australia property exceeds the aggregated market value of Astral' assets which are not taxable Australian property.

Even if CGT scrip for scrip roll-over relief is obtained by these Maximus Shareholders, the Foreign Resident CGT Withholding Tax Rules will continue to operate as outlined below at Section 10.4.

Foreign tax resident Maximus Shareholders who, together with their associates, do not hold a 10% or more interest in Maximus Shares (at the time of disposal or for at least 12 months during the 24 months prior to disposal of their Maximus Shares), should not be subject to CGT on the disposal of their Maximus Shares and therefore, there should be no obligation for Astral to withhold a portion of the Offer Consideration to satisfy the Foreign Resident CGT Withholding Tax Rules (discussed below).

10.4 Foreign Resident CGT Withholding Tax Rules

Australia's foreign resident capital gains withholding tax regime applies to transactions involving the acquisition of certain indirect interests in Australian real property from relevant foreign residents. A 'relevant foreign resident' for these purposes is any Maximus Shareholder who:

- (a) Astral knows or reasonably believes their Maximus Shares to constitute an indirect Australian real property interest; and
- (b) either:
 - (i) Astral:
 - (A) knows is a foreign resident; or
 - (B) reasonably believes is a foreign resident; or
 - (C) does not reasonably believe is an Australian resident, and either has an address outside Australia or Astral is authorised to provide a financial benefit relating to the transaction to a place outside Australia; or
 - (ii) has a connection outside Australia of a kind specified in the regulations.

The relevant withholding tax rate is 12.5%.

A Maximus Shareholder that does not meet the conditions of the foreign resident CGT withholding tax rules described above should provide Astral with a signed and completed declaration (**CGT Declaration**). This includes either of the following:

- Maximus Shareholders who are Australian residents for tax purposes; and
- Maximus Shareholders who are foreign tax residents, and whose Maximus Shares are 'membership interests' but not 'indirect Australian real property interests' (as those terms are defined in the Tax Act).

The CGT Declaration is contained in the Acceptance Form, accompanying this Bidder's Statement. Each Maximus Shareholder should read the CGT Declaration in full and follow the instructions provided on the form.

Unless a signed CGT Declaration form regarding residency or interest, or Variation Notice granted by the Commissioner of Taxation, is provided to Astral for these Maximus Shareholders, Astral may withhold and pay to the Commissioner of Taxation a withholding amount of 12.5% from the Offer Consideration (as outlined in Section 12.6(h) of this Bidder's Statement).

Maximus Shareholders who have an amount withheld should generally be entitled to a credit for the amount withheld upon lodging an Australian income tax return. If you are unsure about whether a credit for the withholding tax may be claimed or how to lodge an Australian income tax return, you should seek independent professional tax advice in this regard.

As outlined above, these rules will continue to operate even if a foreign resident Maximus Shareholder can access CGT scrip for scrip roll-over relief in respect of any capital gain. If this occurs, the foreign resident Maximus Shareholder would need to engage with the Commissioner of Taxation and obtain a Variation Notice (referred to above).

Maximus Shareholders should seek their own independent tax advice as to the implications of the foreign resident capital gains withholding tax rules and the making of a residency declaration or an interest declaration.

10.5 **GST**

No GST should be payable by Maximus Shareholders on the acquisition by Astral of their Maximus Shares under the Offer, or on the receipt by Maximus Shareholders of the Astral Shares as Offer Consideration. Maximus Shareholders who are registered for GST may not be entitled to input tax credits (or only entitled to reduced input tax credits) for any GST incurred on costs associated with the disposal of their Maximus Shares.

10.6 **Stamp duty**

No stamp duty should be payable by the Maximus Shareholders on the acquisition by Astral of their Maximus Shares under the Offer or on the receipt by Maximus Shareholders of the Astral Shares as Offer Consideration.

11 OTHER MATERIAL INFORMATION

11.1 Bid Implementation Deed

On 2 February 2025, Astral and Maximus entered into a bid implementation deed (**BID**). The BID sets out the agreed basis on which Astral will make the Offer and the respective obligations of Astral and Maximus in relation to the Offer.

The BID was released to ASX on 3 February 2025 and a copy is available from the ASX website at (www.asx.com.au).

A summary of the key elements of the BID is set out below.

- (a) Astral has agreed to offer one (1) Astral Share for every two (2) Maximus Shares.
- (b) Astral is required to make the Offer on no less favourable to Maximus Shareholders than those agreed (which are reflected in the Offer terms).
- (c) Maximus has agreed to certain exclusivity arrangements until the earlier of the date on which the Offer Period ends, the date the BID is validly terminated, or the date which is 4 months after the date of the BID (**Exclusivity Period**). The BID contains no shop, no talk and no due diligence restrictions on Maximus during the Exclusivity Period, some of which are subject to fiduciary exceptions as is typical for transactions of this nature.
- (d) The BID also confers a matching right on Astral, under which Maximus must provide notice to Astral of a 'Competing Proposal' (as defined in the BID) and allow Astral the right to match that proposal.
- (e) The BID includes other customary terms for an agreement of this nature including, but not limited to, customary warranties and representations and obligations on Maximus to conduct the business in the ordinary course until the end of the Offer Period, and not to undertake acts that prevent the Conditions from being satisfied or which cause the Conditions to be breached.
- (f) Astral and Maximus have agreed to act in good faith and use reasonable best efforts, subject to the relevant security terms and any required ASX waiver, to enter into agreements with Maximus Option holders to cancel their Maximus Options in consideration for a cash payment by Astral of \$0.022 per Maximus Option, with effect from a Change of Control, being an amount equal to the intrinsic value of the holder's Maximus Options.

11.2 Share Sale and Call Option Agreements

On 24 December 2024, Astral entered into separate share sale agreement (the **Share Sale Agreements**) with Beacon Minerals Limited and Mr Colin Petroulas (each, a **Seller**), to acquire a total of 85,542,745 Maximus Shares (representing an aggregate of 19.99% of Maximus Shares on issue) (**Sale Shares**). Astral issued an aggregate of approximately 40.8 million Astral Shares to the Sellers as consideration for the acquisition of Sale Shares (**Consideration Shares**).

Each Share Sale Agreement provides the Seller with a call option (**Call Back Option**) to purchase all the Sale Shares (**Call Back Option Shares**) for cash consideration equal to the value of the Consideration Shares calculated based on the 2-day VWAP of Astral Shares up to and including 24 December 2024 (**Call Back Option Consideration**). The Call Back Option is exercisable at any time during the Call Back Option Exercise Period. The Call Back Option may only be exercised once.

Each Share Sale Agreement also provides Astral with an option to purchase all of the Call Back Option Shares (**Secondary Call Option**) from the Seller for a price equivalent to the Call Back Option Consideration. Astral may only exercise the Secondary Call Option if completion of the sale and purchase of the Call Back Option Shares has occurred (**Call Back Option Completion**) and the Seller has failed to accept the Offer within one (1) Business Day after the Call Back Option Completion date.

Refer to Astral's substantial holder notice lodged in relation to Maximus on ASX on 30 December 2024 for further details, including copies of the Share Sale Agreements.

11.3 **ASIC modifications to and exemptions from the Corporations Act**

Astral has not obtained from ASIC any modifications to the Corporations Act to facilitate the Offer. Astral may, however, rely on various Class Order and ASIC instruments published by ASIC which provide for certain modifications and exemptions that apply generally for all bidders, including Astral.

(a) **ASIC Corporations (Minimum Bid Price) Instrument 2015/1068**

The Bidder may rely on the provisions of *ASIC Corporations (Minimum Bid Price) Instrument 2015/1068*, which provides relief from the requirement in section 621(4) of the Corporations Act and allows a bidder up to five Business Days before the date of the takeover bid to value the quoted securities being offered as consideration under the takeover bid, for the purposes of determining whether the value of its bid consideration at least equals the maximum value of consideration paid by the bidder for bid class securities in the four months prior to the date of the offer.

Relying on that relief, the Bidder may value the Bidder Shares to be provided under the Offer at the Valuation Date. The valuation is determined by calculating the VWAP of the Bidder Shares in the ordinary course of trading on ASX and during two full days before the Valuation Date.

Under section 621(4A) of the Corporations Act (as inserted into the Corporations Act by the *ASIC Corporations (Minimum Bid Price) Instrument 2015/1068*) the following information is provided:

- (i) the value of Bidder Shares under section 621(4A): \$0.148 per Bidder Share;
- (ii) the Valuation Date: 31 January 2025; and
- (iii) the trading days on which the valuation is based: 30 January 2025 and 31 January 2025.

The value of the Offer per Maximus Share for the purpose of section 621 of the Corporations Act using this valuation is therefore \$0.074. This value exceeds the maximum value of consideration paid by the Bidder and its associates for Maximus Shares in the four months prior to the date of the Offer.

11.4 **Date for determining holders of Maximus Shares**

11.6 **Institutional Acceptance Facility**

As at the date of this Bidder's Statement, Astral has not made a decision as to whether to introduce an institutional acceptance facility in connection with the Offer. However, Astral reserves the right to introduce such a facility.

11.7 **Withholding payment**

If any amount (the withholding amount) is required under any Australian law or by any public authority to be:

- (a) withheld from any consideration otherwise payable to you under this Offer and paid to a public authority; or
- (b) retained by Astral out of any consideration otherwise payable to you under this Offer,

the payment, provision or retention by Astral of the withholding amount (as applicable) will constitute full discharge of Astral's obligations to provide the consideration to you to the extent of the withholding amount.

11.8 Return of documents

If the Offer does not become unconditional or any contract arising from the Offer is rescinded on the grounds of a breach of a condition of that contract, Astral will, at its election, destroy the Acceptance Form and any other documents sent with it by you and notify ASX of this.

11.9 Consents

Each of the following parties (**Relevant Advisors**) has given and has not, before the date of this Bidder's Statement, withdrawn its consent to be named in this Bidder's Statement in the form and context in which it is named:

Each of the Relevant Advisors to the maximum extent permitted by law, expressly disclaims and takes no responsibility for any part of this Bidder's Statement.

As permitted by ASIC Corporations (Takeover Bids) Instrument 2023/683, this Bidder's Statement includes or is accompanied by statements which are made, or based on statements made, in documents lodged with ASIC or given to ASX. In addition to the documents specified as a source document elsewhere in this Bidder's Statement, these are: the BID, Maximus' 2024 Annual Report, Maximus' Quarterly Activities and Cashflow Report – December 2024, various Maximus ASX announcements, Maximus' Director's Interest Notices, an Appendix 2A dated 14 January 2025 and the most recent substantial holder notices by each substantial holder in Maximus. Pursuant to this ASIC Instrument, the consent of the person to whom such statements are attributed is not required for the inclusion of these statements in this Bidder's Statement. Any Maximus Shareholder who would like to receive a copy of any of these documents may obtain a copy free of charge (within two Business Days of the request) during the Offer Period by calling the Offer Information Line on 1300 103 392 (for callers within Australia) or +61 2 9068 1925 (for callers outside Australia), Monday to Friday between 8:30am and 7:00pm (AEDT).

11.10 Regulatory approvals

Astral has obtained all necessary regulatory approvals required in connection with the Offer. As such, this Offer is not subject to any regulatory conditions.

11.11 Consent to early despatch

The Maximus Directors have consented to Astral sending this Bidder's Statement to Maximus Shareholders earlier than would otherwise be permitted under the Corporations Act.

11.12 Due Diligence

Astral was given access by Maximus to certain information concerning Maximus and the Maximus Group which has not been publicly disclosed. This information allowed Astral to confirm information which has been publicly disclosed by Maximus.

None of the information to which Astral was given access, was, in Astral's opinion, information that, if it was generally available, a reasonable person would expect the information to have a material effect on the price or value of Maximus Shares or, except as disclosed in the Bidder's Statement, would otherwise be material to the decision by a Maximus Shareholder whether or not to accept the Offer.

(b) Scoping Study

The information in this Bidder's Statement relating to Astral's Mandilla Scoping Study is extracted from its announcement on 21 September 2023 titled "Mandilla Gold Project – Kalgoorlie, WA. 11.14 Foreign Laws

The Offer is not registered in any jurisdiction outside Australia (unless an applicable foreign law treats it as registered as a result of this document being lodged with ASIC). It is your sole responsibility to satisfy yourself that you are permitted by any foreign laws applicable to you to accept the Offer.

In particular, this Bidder's Statement may not be distributed to any person, and the Astral Shares may not be offered or sold, in any country outside Australia except to the extent permitted below.

(a) New Zealand

This Bidder's Statement is not a New Zealand disclosure document and has not been registered, filed with or approved by any New Zealand regulatory authority under or in accordance with the Financial Markets Conduct Act 2013 or any other New Zealand law.

The offer of Shares is being made to existing shareholders of Maximus in reliance upon the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021 and, accordingly, this Bidder's Statement may not contain all the information that a disclosure document is required to contain under New Zealand law.

(b) Ineligible Foreign Shareholders

Maximus Shareholders who are Ineligible Foreign Shareholders will not be entitled to receive Astral Shares as consideration for their Maximus Shares pursuant to the Offer, unless Astral otherwise determines.

A Maximus Shareholder is an Ineligible Foreign Shareholder for the purposes of the Offer if their address as shown in the register of members of Maximus is in a jurisdiction other than Australia or its external territories, and New Zealand unless Astral determines (in its absolute discretion) that it is not legally or practically constrained from making the Offer to a Maximus Shareholder in the relevant jurisdiction and to issue Astral Shares to such a shareholder on acceptance of the Offer, and that it is lawful for the shareholder to accept the Offer in such circumstances in the relevant jurisdiction (**Ineligible Foreign Shareholder**). Notwithstanding anything else in this Bidder's Statement, Astral is not under any obligation to spend any money, or undertake any action, in order to satisfy itself concerning any of these matters.

(c) Small Parcel Shareholder

A Maximus Shareholder is a Small Parcel Shareholder if the total number of shares held by it is less than a Small Parcel.

(d) Ineligible Foreign Shareholders and Small Parcel Shareholders

The Astral Shares which would otherwise have been issued to Ineligible Foreign Shareholders and Small Parcel Shareholders will instead be issued to the Nominee, who will sell these Shares. The net proceeds of the sale of such Shares will then be remitted to the relevant Ineligible Foreign Shareholders and Small Parcel Shareholders. See Section 12.7 for further details.

11.15 Other material information

Except as disclosed elsewhere in this Bidder's Statement, there is no other information that is:

- (a) material to the making of a decision by a Maximus Shareholder whether or not to accept the Offer; and
- (b) known to Astral,

which has not previously been disclosed to Maximus Shareholders in this Bidder's Statement.

12 TERMS AND CONDITIONS OF THE OFFER

12.1 Offer

- (a) Astral offers to acquire from you all Maximus Shares on issue at the Record Date together with all Rights attached to them, for the Offer Consideration and on the terms set out in this Bidder's Statement. This Offer extends to Maximus Shares in respect of which you become registered or become entitled to be registered as the holder prior to the end of the Offer Period as a result of the exercise, conversion or vesting of rights or options or other securities convertible into Maximus Shares that are on issue at the Record Date.
- (b) This Offer extends to any person who is able during the Offer Period to give good title to a parcel of Maximus Shares and has not already accepted an Offer for those Maximus Shares. If you accept this Offer to sell all of your Maximus Shares, you will be taken to have accepted the Offer for all your Maximus Shares for the purposes of section 653B of the Corporations Act.
- (c) If, at the time this Offer is made to you, you are an Ineligible Foreign Shareholder or a Small Parcel Shareholder, you will not receive Astral Shares. Instead, you are offered and will receive the net proceeds determined in accordance with Section 12.7 of this Bidder's Statement.
- (d) If, at the time the Offer is made to you, or at any time during the Offer Period, another person is, or is entitled to be, registered as the holder of some or all of Your Maximus Shares, then:
 - (i) a corresponding offer on the same terms and conditions as this Offer will be deemed to have been made to that other person in respect of those Maximus Shares;
 - (ii) a corresponding offer on the same terms and conditions as this Offer will be deemed to have been made to you in respect of any other Maximus Shares you hold to which the Offer relates; and
 - (iii) this Offer will be deemed to have been withdrawn immediately at that time.
- (e) If at any time during the Offer Period you are registered or entitled to be registered as the holder of one or more parcels of Maximus Shares as trustee or nominee for, or otherwise on account of, another person, you may accept as if a separate and distinct offer on the same terms and conditions as this Offer had been made in relation to each of those parcels and any parcel you hold in your own right. To validly accept the Offer for each parcel, you must comply with the procedure in section 653B(3) of the Corporations Act. If, for the purposes of complying with that procedure, you require additional copies of this Bidder's Statement and/or the Acceptance Form, please call the Offer Information Line on 1300 103 392 (for callers within Australia) or +61 2 9068 1925 (for callers outside Australia), Monday to Friday between 8:30am and 7:00pm (AEDT) to request those additional copies.
- (f) If your Maximus Shares are registered in the name of a broker, investment dealer, bank, trust company or other nominee you should contact that nominee for assistance in accepting the Offer.
- (g) The consideration offered is one (1) Astral Share for every two (2) of your Maximus Shares. Where the calculation of the Offer Consideration to be issued to a Maximus Shareholder would result in the Maximus Shareholder becoming entitled to a fraction of an Astral Share, the fractional entitlement will be rounded up to the nearest whole number if the fraction is 0.5 or greater of an Astral Share and rounded down if the fraction is less than 0.5 of an Astral Share.
- (h) By accepting this Offer, you undertake to transfer to Astral not only Your Accepted Maximus Shares, but also all Rights attached to those Maximus Shares.
- (i) The Offer is dated 5 February 2025.

- (j) The Offer is subject to the Conditions.

12.2 Offer Period

- (a) The Offer opens on Wednesday, 5 February 2025.
- (b) The Offer will remain open for acceptance from the date of this Offer and ending at 7:00pm (AEDT) on Friday, 7 March 2025, unless withdrawn or extended by Astral in its sole and absolute discretion, in accordance with the Corporations Act.
- (c) In accordance with section 624(2) of the Corporations Act, if, within the last seven days of the Offer Period, either of the following events occur:
 - (i) the Offer Consideration is increased; or
 - (ii) Astral's Voting Power in Maximus increases to more than 50%,

Astral may require you to provide all documents necessary to vest title to those Rights in Astral, or otherwise to give it the benefit or value of those Rights. - (i) If at the time you accept the Offer any of the following:
- (i) *Banking (Foreign) Exchange Regulations 1959 (Cth)*;
