

Looking forward. Mining green.

Blackstone Minerals to Merge with IDM International and Explore the World Class Mankayan Copper-Gold Porphyry Project

Investor Presentation
February 2025

DISCLAIMERS

These presentation materials and the accompanying verbal presentation (together, the **Presentation Materials**) have been prepared by Blackstone Minerals Limited (ACN 614 534 226) (**Company**) as at 5th February 2025 and statements are current only as at that date. Information in the Presentation Materials remains subject to change without notice. The Company has no responsibility or obligation to inform you of any matter arising or coming to its notice, after the date of this document, which may affect any matter referred to in this document. By receiving the Presentation Materials, you acknowledge and represent to the Company that you have read, understood and accepted the terms of this disclaimer. It is the responsibility of all recipients of these Presentation Materials to obtain all necessary approvals to receive these Presentation Materials and receipt of the Presentation Materials will be taken by the Company to constitute a representation and warranty that all relevant approvals have been obtained.

NOT AN OFFER

These Presentation Materials are for information purposes only. The Presentation Materials do not comprise a prospectus, product disclosure statement or other offering document under Australian law (and will not be lodged with the Australian Securities and Investments Commission) or any other law. The Presentation Materials also do not constitute or form part of any invitation, offer for sale or subscription or any solicitation for any offer to buy or subscribe for any securities nor shall they or any part of them form the basis of or be relied upon in connection therewith or act as any inducement to enter into any contract or commitment with respect to securities. In particular, these Presentation Materials do not constitute an offer to sell or a solicitation to buy, securities in the United States of America.

NOT INVESTMENT ADVICE

The Presentation Materials are not investment or financial product advice (nor tax, accounting or legal advice) and are not intended to be used for the basis of making an investment decision. Recipients should obtain their own advice before making any investment decision.

SUMMARY INFORMATION

The Presentation Materials do not purport to be all inclusive or to contain all information about the Company or any of the assets, current or future, of the Company. The Presentation Materials contain summary information about the Company and its activities which is current as at the date of the Presentation Materials. The information in the Presentation Materials is of a general nature and does not purport to contain all the information which a prospective investor may require in evaluating a possible investment in the Company or that would be required in a prospectus or product disclosure statement or other offering document prepared in accordance with the requirements of Australian law or the laws of any other jurisdiction, including the United States of America.

While reasonable care has been taken in relation to the preparation of the Presentation Materials, none of the Company or its directors, officers, employees, contractors, agents, or advisers nor any other person (**Limited Party**) guarantees or makes any representations or warranties, express or implied, as to or takes responsibility for, the accuracy, reliability, completeness or fairness of the information, opinions, forecasts, reports, estimates and conclusions contained in this document. No Limited Party represents or warrants that this document is complete or that it contains all information about the Company that a prospective investor or purchaser may require in evaluating a possible investment in the Company or acquisition of shares in the Company. To the maximum extent permitted by law, each Limited Party expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of or reliance on information contained in this document including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from, or for omissions from, this document including, without limitation, any financial information, any estimates

DISCLAIMERS

COMPETENT PERSON STATEMENT

The information in this report that relates to Exploration Results and Mineral Resources at the Mankayan project in the Philippines is based on information compiled by Mark Berry, a Competent Person who is a Member of the Australian Institute of Geoscientists. Mark is employed by Derisk Geomining Consultants Pty Ltd, is independent of Blackstone Resources Limited and IDM International Limited, and has no conflict of interest in accepting Competent Person responsibility for the relevant content in this report. He has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mark consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

FORWARD LOOKING INFORMATION

This document contains forward looking statements concerning the Company. Forward-looking statements are not statements of historical fact, and actual events and results may differ materially from those described in the forward-looking statements as a result of a variety of risks, uncertainties and other factors. Forward-looking statements are inherently subject to business, economic, competitive, political and social uncertainties and contingencies. Many factors could cause the Company's actual results to differ materially from those expressed or implied in any forward-looking information provided by the Company, or on behalf of the Company. Such factors include, among other things, risks relating to additional funding requirements, metal prices, exploration, development and operating risks, competition, production risks, regulatory restrictions, including environmental regulation and liability and potential title disputes. Forward looking statements in this document are based on the Company's beliefs, opinions and estimates of the Company as of the dates the forward-looking statements are made, and no obligation is assumed to update forward looking statements if these beliefs, opinions and estimates should change or to reflect other future developments. Although management believes that the assumptions made by the Company and the expectations represented by such information are reasonable, there can be no assurance that the forward-looking information will prove to be accurate. Forward-looking information involves known and unknown risks, uncertainties, and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any anticipated future results, performance or achievements expressed or implied by such forward-looking information. Such factors include, among others, the actual market price of commodities, the actual results of future exploration, changes in project parameters as plans continue to be evaluated, as well as those factors disclosed in the Company's publicly filed documents. Readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws. No representation, warranty or undertaking, express or implied, is given or made by the Company that the occurrence of the events expressed or implied in any forward-looking statements in this presentation will actually occur.

This Presentation was authorised for release to the ASX by the Board of Blackstone Minerals Limited.

Transaction Highlights

A South East Asia base metals merger of equals

Looking forward. Mining green.

An exciting opportunity to explore the world class Mankayan copper-gold porphyry project

Recent drilling with assays pending and significant opportunities for further exploration success

Strategically located 2.5km along strike of the Lepanto gold mine and Far Southeast (FSE) project

Merged entity can utilise Blackstone's extensive base metals mine development experience in South East Asia

Philippines is open for business and the IDM International team has the social licence to operate at Mankayan

Mankayan Copper-Gold Project

A rare opportunity with scale and high-grade

Looking forward. Mining green.

Mankayan is a world class mineral district

- Mankayan is one of the largest high-grade undeveloped copper-gold porphyry projects globally
- Mankayan is a large mineralised system which remains open to the north, south and at depth
- Mankayan offers a rare opportunity for a lower capex development scenario focused on the high-grade core
- Philippines has a long history of successful mining operations (B2Gold, OceanaGold)
- Located within a well-known world class district, hosting large porphyry systems with particularly high gold grades

Historic world class drill intercepts

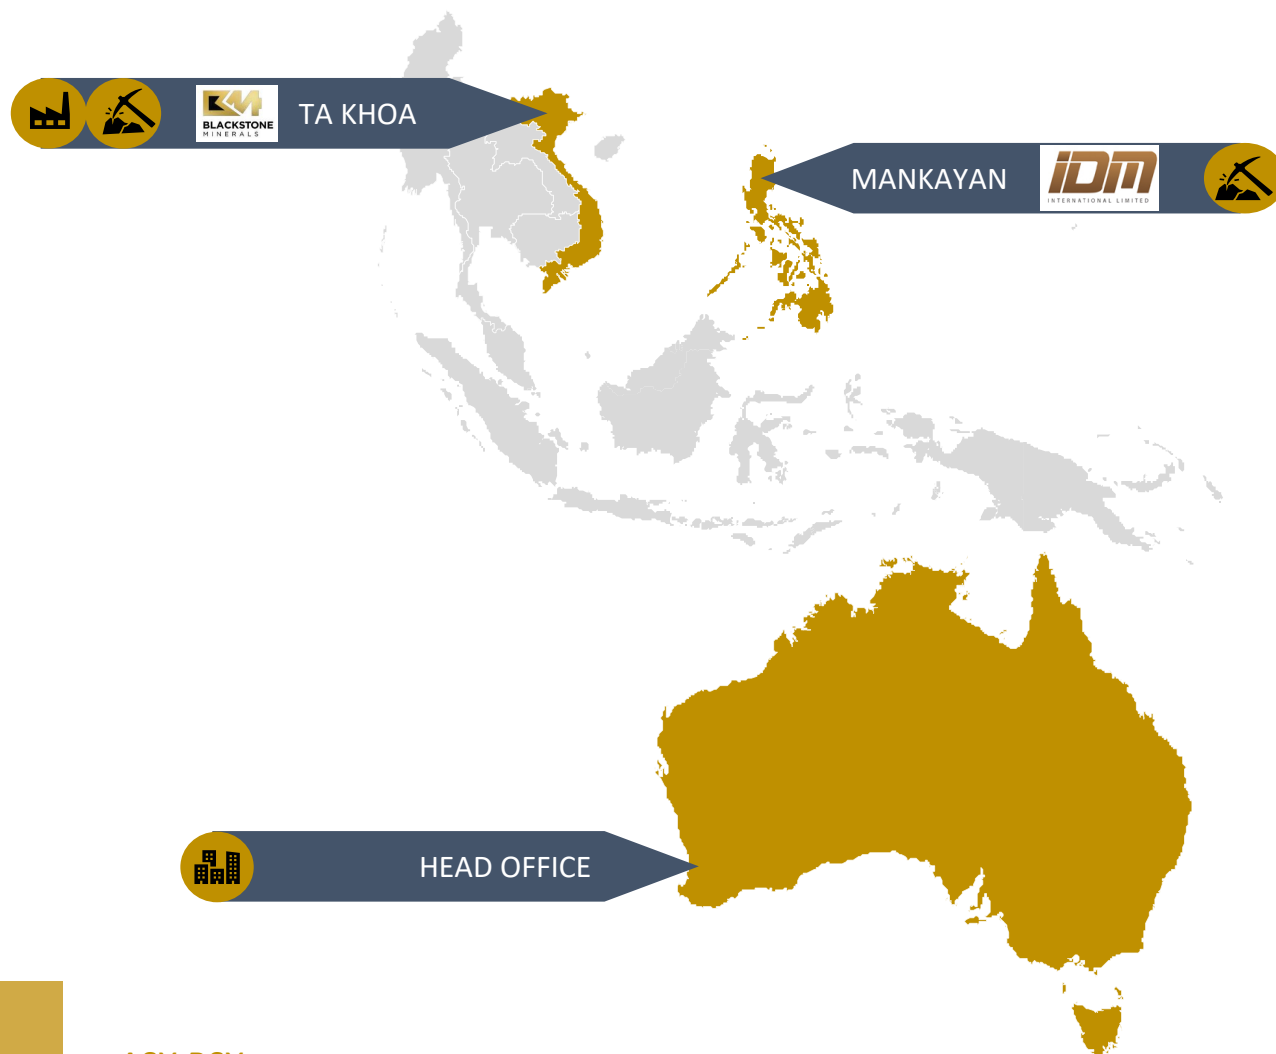

- 911m @ 1.00% CuEq¹ (0.51% Cu & 0.63g/t Au) from 156m [MMD-11]
 - **Incl. 253m @ 1.43% CuEq (0.73% Cu & 0.89g/t Au)**
- 543m @ 1.08% CuEq (0.46% Cu & 0.79g/t Au) from 262m [THM-13]
 - **Incl. 277m @ 1.43% CuEq (0.50% Cu & 1.19g/t Au)**
- 754m @ 1.03% CuEq (0.49% Cu & 0.69g/t Au) from 254m [THM-22]
 - **Incl. 430m @ 1.21% CuEq (0.58% Cu & 0.80g/t Au)**
- 1,119m @ 0.86% CuEq (0.42% Cu & 0.56g/t Au) from 230m [PFC-40]
 - **Incl. 352m @ 1.15% CuEq (0.53% Cu & 0.79g/t Au)**
- 972m @ 0.89% CuEq (0.44% Cu & 0.58g/t Au) from 247m [PFC-44]
 - **Incl. 525m @ 1.09% CuEq (0.52% Cu & 0.73g/t Au)**
- 747m @ 0.94% CuEq (0.48% Cu & 0.59g/t Au) from 308m [PFC-43]
 - **Incl. 243m @ 1.06% CuEq (0.59% Cu & 0.60g/t Au)**

Blackstone to Merge with IDM International

Merger of equals to create South East Asia's premier base metals developer

Looking forward. Mining green.

Rationale

- Blackstone has an established base metals mine development team that can be utilised to unlock the full potential of the world class Mankayan copper-gold project
- Existing relationships and experience in the region create synergies between the Mankayan copper-gold project and the Ta Khoa nickel project

Opportunity

- An exciting opportunity to explore the world class Mankayan copper-gold porphyry project utilising Blackstone's cost-effective exploration and development team
- Opportunity to deploy and utilise Blackstone's exploration and development equipment from the Ta Khoa project (i.e. geophysics, drilling & metallurgical testing)

Commodity	Nickel	Copper-Gold
Location	Vietnam	Philippines
Project	Ta Khoa	Mankayan
Drilling to date	170,000m	56,000m
Development Phase	Late Stage (DFS)	Early Stage (Scoping)

Mankayan – A Massive High-grade Porphyry

A rare combination of scale, high-grade optionality, location & team

Looking forward. Mining green.

Mankayan Copper-Gold Project Overview

- Located in Northern Luzon, ~340km from Manila by road and near the centre of the Mankayan mineral district
- 2.5km along strike of the active Lepanto Gold Mine and the Far Southeast (FSE) porphyry project
- 120km north of Philex Mining Corporations', Sto. Thomas II Mine, located in Padcal, an underground block caving operation currently producing 10ktpa Cu & 38kozpa Au (CY23 production)¹
- Classic porphyry style copper-gold mineralisation with a high-grade core
- Bulk tonnage, large scale orebody ~1,100m of strike and ~600m wide
- Mineralisation extends to ~1,100m, is open at depth and along strike to the north & south
- Over 56,000m of diamond drilling has been completed to date

Philippines is Open for Business

A new chapter in the Philippine mining sector

Looking forward. Mining green.

- Philippines is party to ASEAN regional trade agreements, including an investment chapter with trading partner Australia
- On President Ferdinand Marcos Jr's election in 2022 metal production was up 32% in 2022¹
- Mines and Geosciences Bureau (MGB) stated:

“the desire to sustain collaborative efforts in the promotion of mineral development as a viable option for the country’s sustainable economic growth”

- Producing operations generating significant cashflows

			
Project	Masbate ²	Didipio ³	Runruno ⁴
Reporting period	FY25E	FY24E	FY25E
Au Production (Koz)	170 – 190	104 - 108	70 – 75
AISC (US\$/oz Au)	1,310 - 1,370	1,000 – 1,100	1,225 - 1,325

Social Licence to Operate at Mankayan

In-country team driving local collaboration and engagement

- IDM International signed a 25-year Mineral Production Sharing Agreement mining license renewal in March 2022
- IDM International signed a Memorandum of Agreement with the local Indigenous People in December 2024
- The MoA is the most important milestone in achieving a social license to operate in the Philippines
- Signing of the **MoA is a significant milestone for the Mankayan project**, being the first mining company to obtain IP consent in the area
- The IDM International team has established a strong partnership with the local community based on the shared commitment to develop the Mankayan project in a sustainable manner
- The Mankayan Project has been identified as a priority project by the Mines and Geosciences Bureau

Lepanto – Mankayan’s Next Door Neighbour

Mankayan is located 2.5km from an operating gold mine & Far Southeast

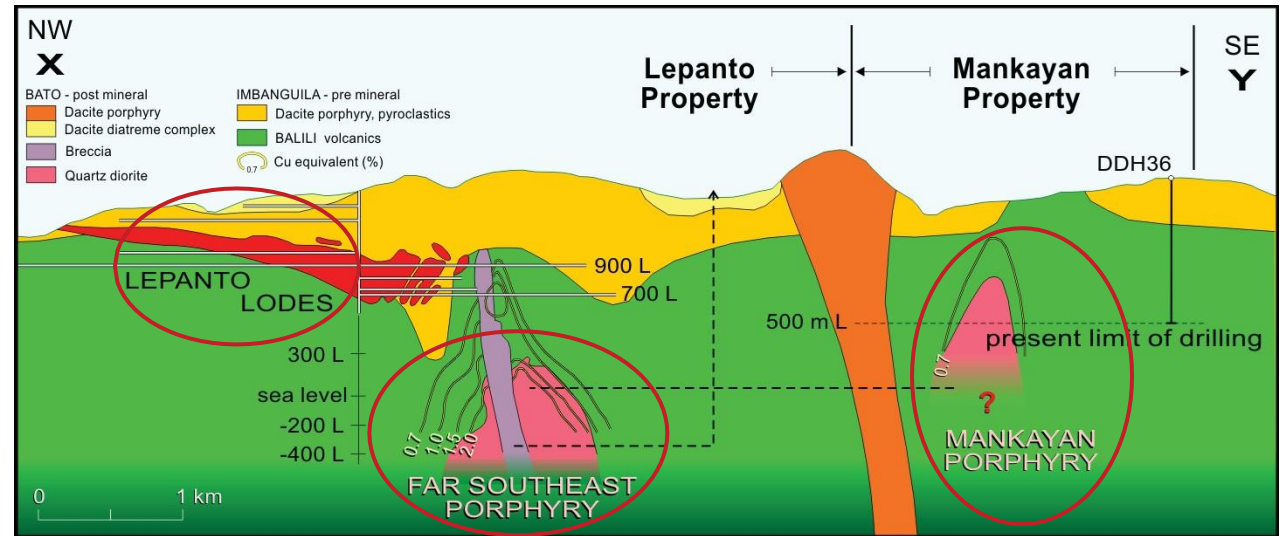

Looking forward. Mining green.

Lepanto Lodes

- Held 100% by Lepanto Consolidated Mining Company (Lepanto) a 100% Filipino-owned gold producer
- Located 2.5km from Mankayan project
- Produced 22.5koz Au and 43koz Ag in FY2023²
- 900ktpa underutilised milling capacity
- Gold Reserves: 1.7Mt @ 4.94g/t Au for 270koz²
- Copper-Gold Reserves: 5.1Mt @ 2.42g/t Au & 1.89% Cu for 397koz Au & 96.5kt Cu²

Far Southeast Porphyry (FSE)

- Goldfields acquired 40% of FSE in 2012 for US\$230m
- Goldfields had the option to acquire an additional 20% for US\$110m and initial development cost of US\$165m
- Goldfields drilled over 100,000m and invested ~US\$500m into the acquisition and exploration of the FSE project

Far Southeast Porphyry Mineral Resource¹

Category	Tonnes (Mt)	Grade (Au g/t)	Metal (Au Moz)	Grade (Cu %)	Metal (Cu Mt)
Inferred	891.7	0.7	19.8	0.5	4.5

Transaction Overview

Looking forward. Mining green.

Transaction Terms	<ul style="list-style-type: none">▪ All scrip merger of equals via the acquisition of 100% of the fully paid ordinary shares in IDM International Ltd (IDM International) by way of an IDM International Scheme of Arrangement (Scheme)▪ Under the Scheme, IDM International shareholders are to receive 7.4 shares in Blackstone for each IDM International share they hold▪ Implied IDM International equity value of \$18.7 million (or \$0.20 per IDM International share)▪ The Scheme is conditional on IDM International and BSX Shareholder Approval▪ Refer to ASX announcement for detailed transaction summary, terms and conditions
Board & Management	<ul style="list-style-type: none">▪ The combined group to be led by Scott Williamson as Managing Director, Hamish Halliday as Non-Executive Chairman, and Geoff Gilmour as Non-Executive Director▪ Greg Cunnold and Johan Raadsma to be Advisors to the Board▪ Blackstone Minerals and IDM International combined executive team
IDM Board Recommendation	<ul style="list-style-type: none">▪ IDM International's board unanimously recommends the Scheme in the absence of a superior proposal
Advisors	<ul style="list-style-type: none">▪ Discovery Capital is acting as financial advisor to IDM International in relation to the Scheme▪ Steinepreis Paganin is acting as legal advisor to Blackstone Minerals and Johnson Winter Slattery is acting as legal advisor to IDM International in relation to the Scheme

Proforma Capital Structure

 2. Cash and listed investments per 31 December 2024 quarterly report

Indicative Scheme Timetable

Looking forward. Mining green.

Event	Date
Announcement of the Scheme	6 February 2025
IDM Provides draft Scheme Booklet to ASIC	19 March 2025
First Court Hearing	8 April 2025
Scheme booklet dispatched to IDM International shareholders	10 April 2025
Scheme Meeting	16 May 2025
Second Court Hearing (Approval)	19 May 2025
Effective Date	20 May 2025
Implementation Date	29 May 2025

The dates in this Timetable are indicative only and are subject to ASX's approval of the Timetable in accordance with Appendix 7A of the ASX Listing Rules and the availability of the Court.

Seasoned Board & Management Team

An experienced mining team to build an international base metals business

Looking forward. Mining green.

Board of Directors

Scott Williamson

Managing Director

- Mining Engineer by background with block caving experience at Rio Tinto
- +20 years experience in technical and corporate roles in mining and capital markets

Hamish Halliday

Non-Executive Chair

- Geologist with over 20 years' corporate and technical experience
- Founder of Adamus Resources Ltd, Blackstone Minerals and many other junior miners

Geoff Gilmour

Non-Executive Director

- +30 years of corporate experience in the junior mining sector
- Instrumental in the creation of Andean Resources Ltd (\$3.56bn takeover by Goldcorp)

Greg Cunnold

Advisor

- Geologist with over 25 years' experience in international exploration
- Base and precious metals experience across Australia, SE Asia, Africa and Eastern Europe

Johan Raadsma

Advisor

- Mining Engineer with over 35 years' experience in mining, civil and resource development
- Current Chairman of B2Gold's 200kozpa gold processing facility at Masbate

Executive Management

Joey Ayson

Executive

- Geologist with over 40 years' experience in exploration, mine development & management
- Current in-country representative for government liaison, permitting & tenement management

Ronnie Siapno

Executive

- Mining Engineer with over 35 years' experience in mine development & management
- Current President of Crescent Mining subsidiary and Director of AIM-listed Bezant Resources

Tessa Kutscher

Executive

- International experience across various industries (mining, finance, tourism, education)
- +20 years' experience working with C-Suite teams in strategy, planning, and management

Graham Rigo

Executive

- Chemical Engineer with +11 years' experience in Ni-Co hydromet production
- Former Study Manager for Ausenco

Lon Taranaki

Executive

- +30 years' experience in all aspects of resources and mining, from studies to operations
- Previous positions with BHP, Segdmans, Straits Resources, Sakari Resources

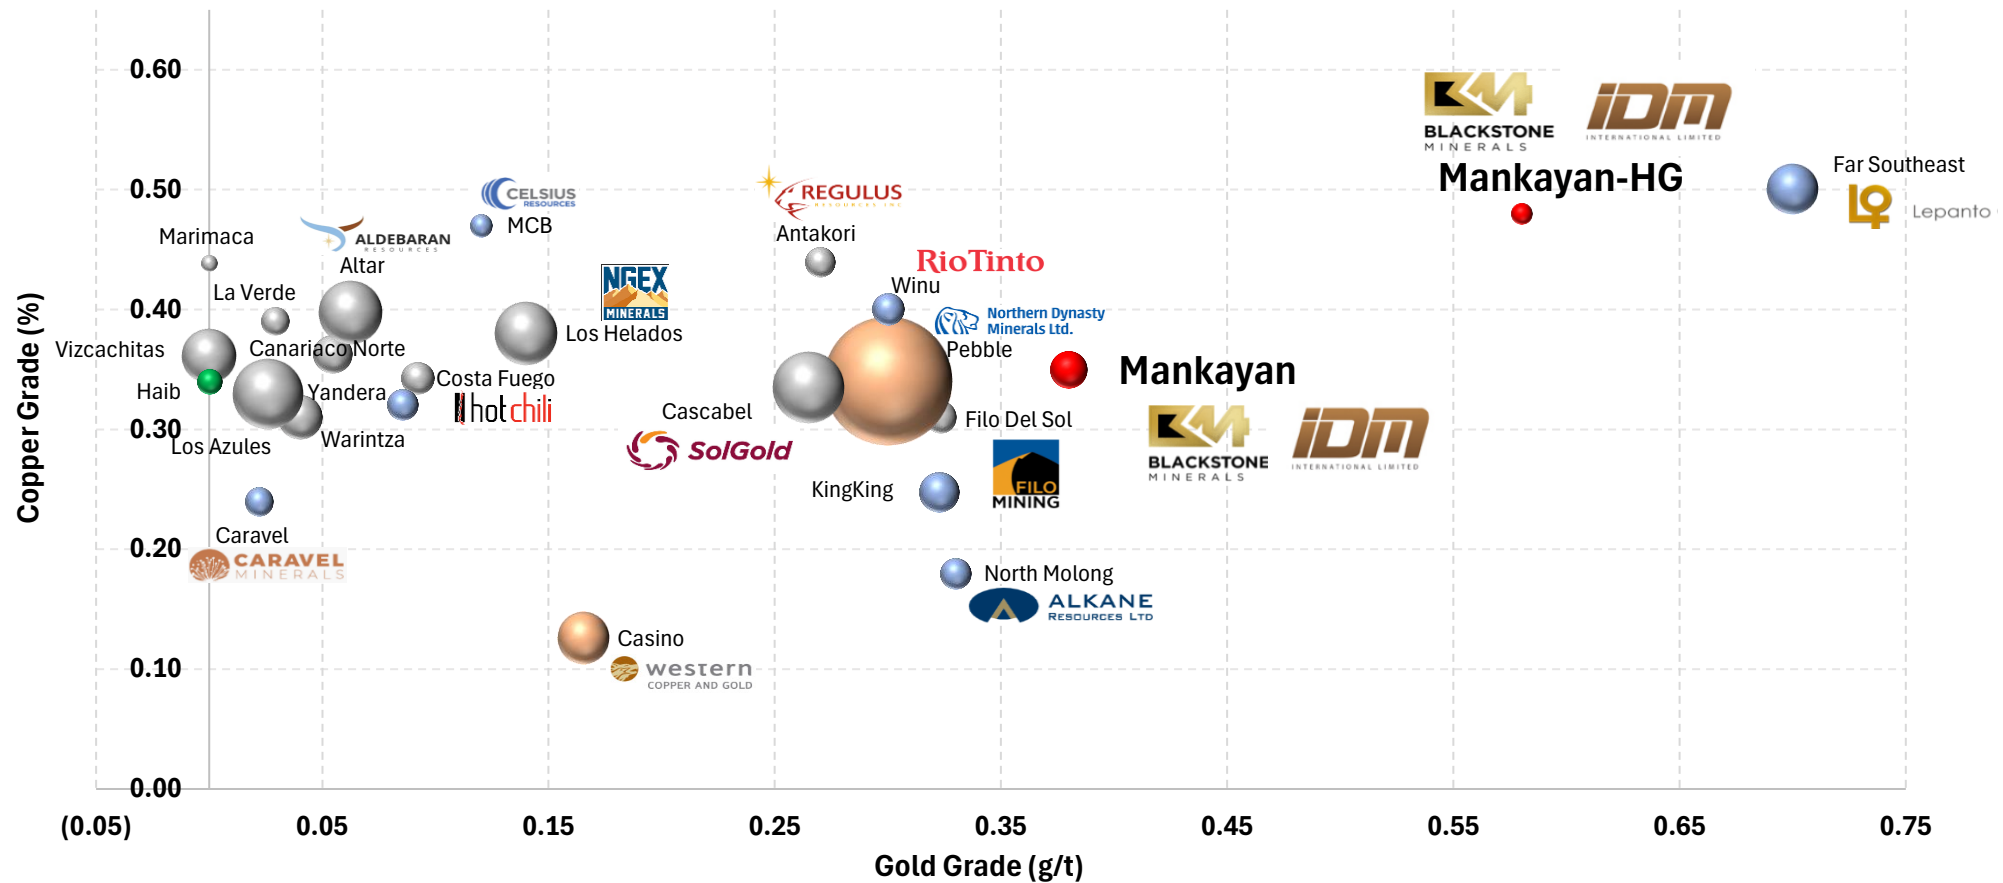

IDM International Representatives

Mankayan – A Rare Opportunity

Looking forward. Mining green.

Mankayan's high-grade is rare compared to global undeveloped Cu-Au porphyry projects

■ South Americas ■ Asia Pacific ■ North America ■ Africa * Bubble size = Total CuEq¹ tonnes

ASX:BSX

1. CuEq calculation assumes metal prices of US\$9,000/t Cu, US\$2,700/oz Au

ASX Copper Peer Comparison

IDM International has one of the largest copper resources compared to ASX peers

Looking forward. Mining green.

1. CuEq calculation assumes metal prices of US\$9,000/t Cu, US\$2,700/oz Au Refer to Slide 25 for reference to source data.

Summary

Attractive Investment Proposition

Looking forward. Mining green.

Mankayan is located within a well-known world class mineral district, hosting large porphyry systems with particularly high gold grades

The Philippines offers a pro-mining environment with a strong history of successful operations (B2Gold, OceanGold), and the IDM International team holds the social license to operate responsibly in the region

Mankayan is located 2.5km from the active Lepanto Gold Mine and the Far Southeast Porphyry (FSE) Project

Mankayan is a large mineralised system which remains open to the north, south and at depth

Mankayan offers a rare opportunity for a lower capex development scenario focused on the high-grade core

E: admin@blackstoneminerals.com.au

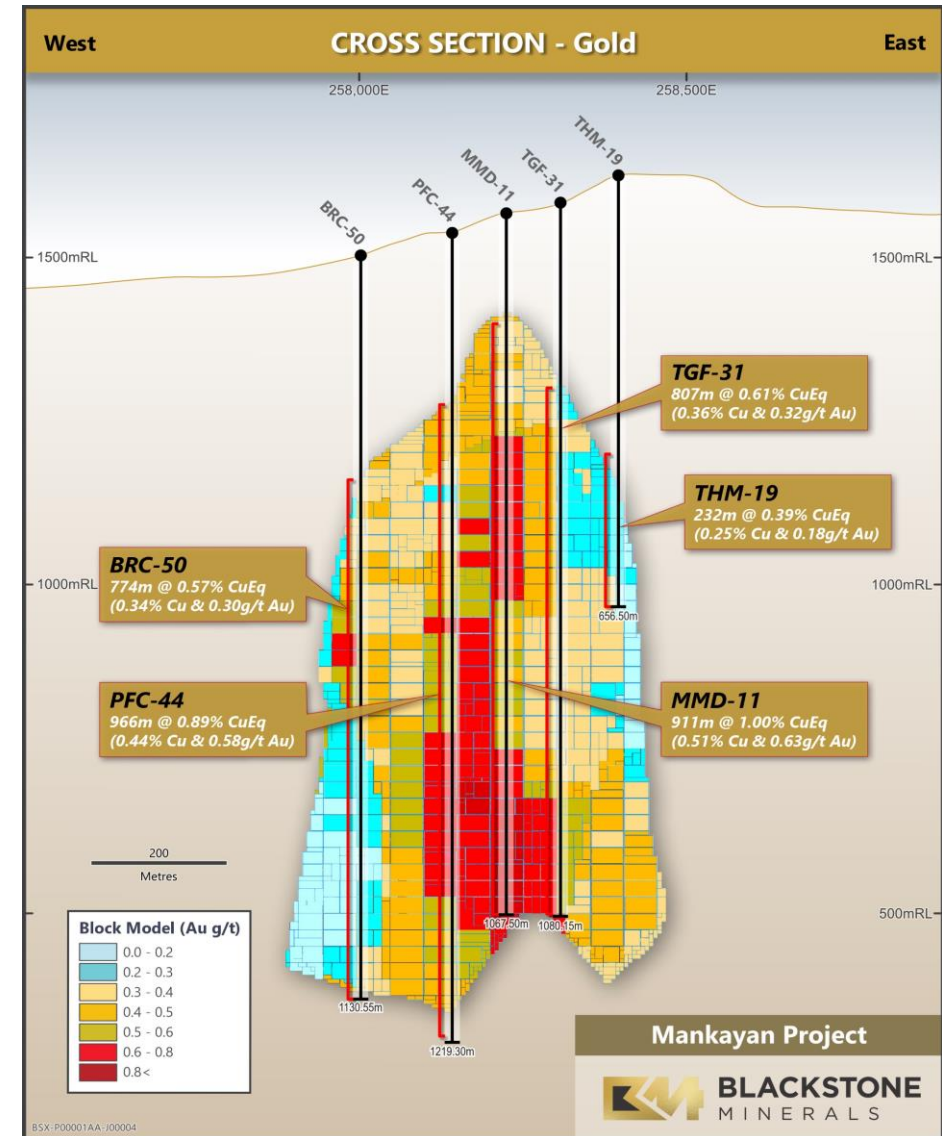

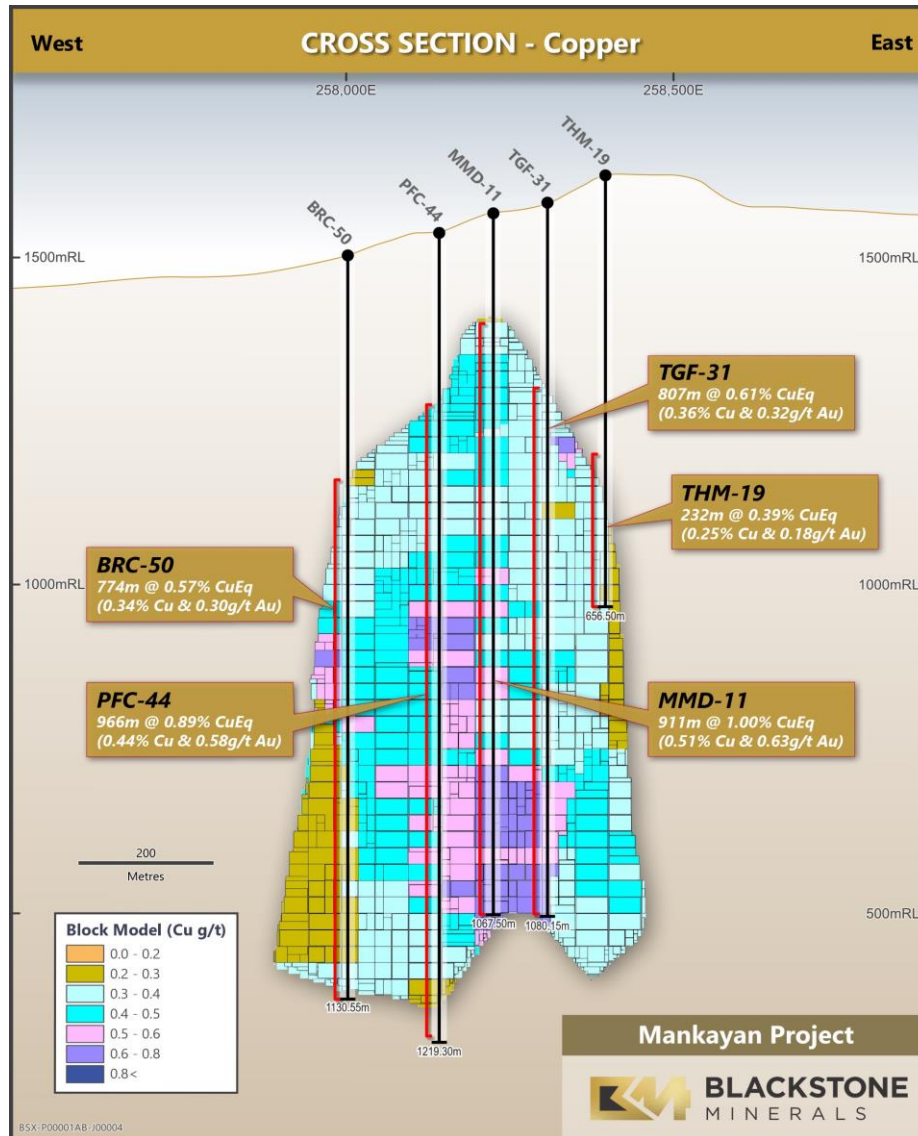

www.blackstoneminerals.com.au

Mankayan Long Section – Copper & Gold

1. CuEq calculation assumes metal prices of US\$2.80/lb Cu, US\$1,800/oz Au and recoveries of 90% for Cu and 75% for Au as per the existing JORC 2012 Mineral Resource Estimate
2. Refer to ASX Announcement on 6 February 2025 for complete drilling information (JORC)

Mankayan Cross Sections – Copper & Gold

1. CuEq calculation assumes metal prices of US\$2.80/lb Cu, US\$1,800/oz Au and recoveries of 90% for Cu and 75% for Au as per the existing JORC 2012 Mineral Resource Estimate
 2. Refer to ASX Announcement on 6 February 2025 for complete drilling information (JORC)

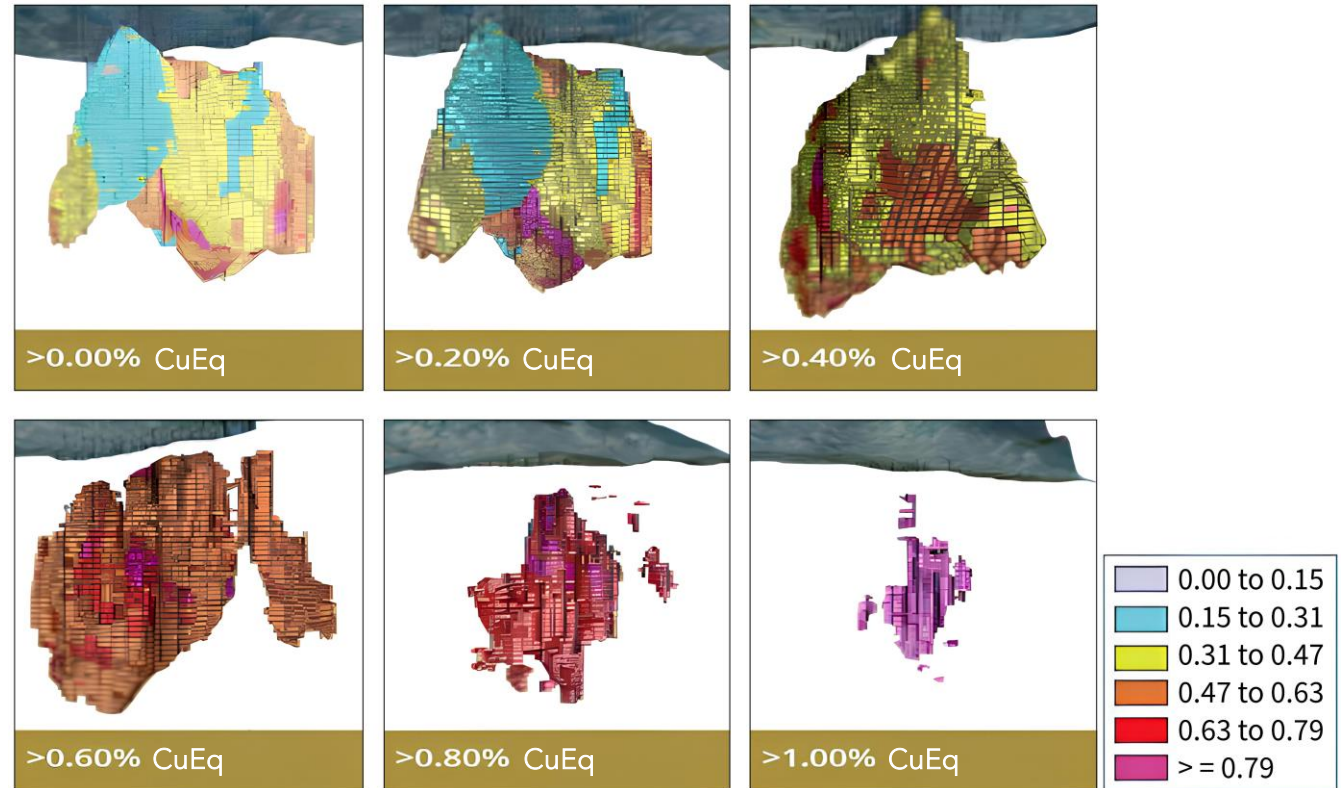

Mankayan – High Grade Optionality

Potential for high-grade and bulk-tonnage mining methods

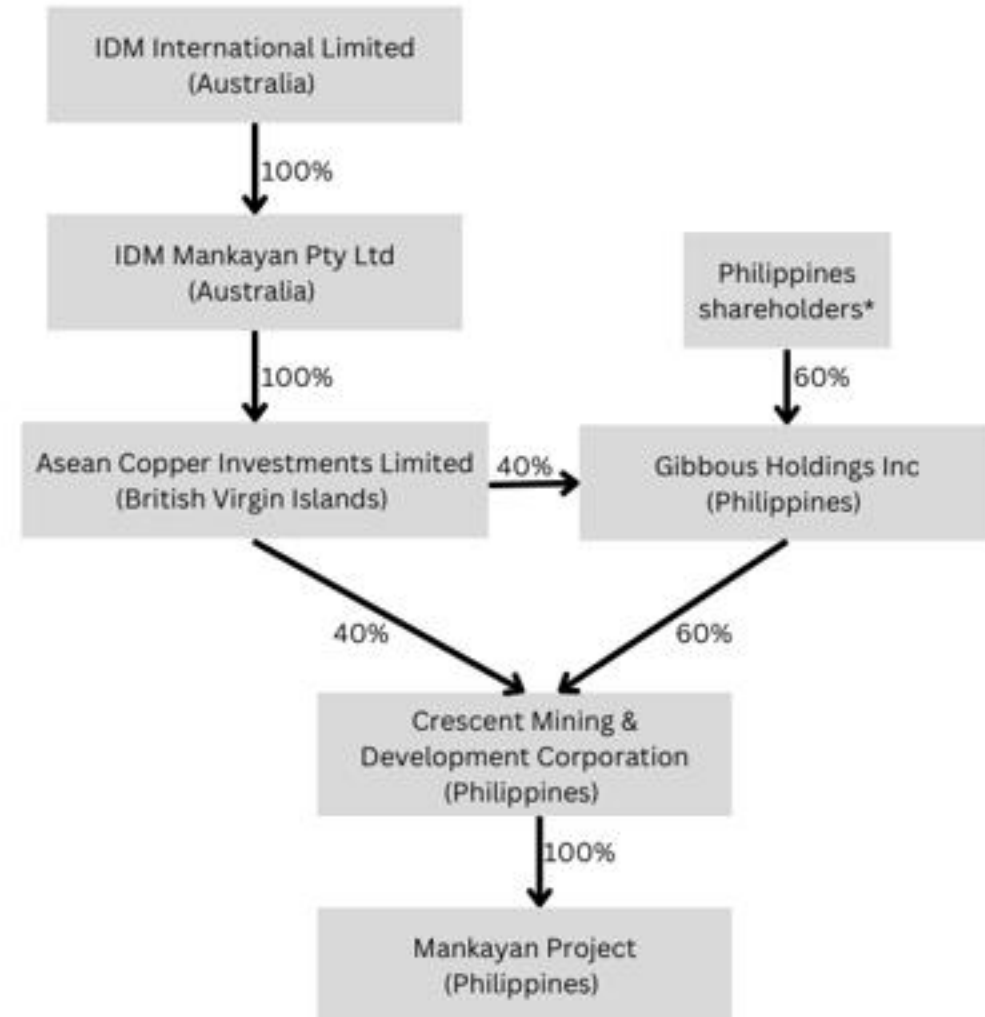

Looking forward. Mining green.

- The Mankayan Copper-Gold Project presents a dual development opportunity with potential for both high-grade and bulk-tonnage mining methods
- The high-grade core enables selective mining methods to target the high-grade portion of the resource
- Mining the high-grade core involves lower upfront capital costs with flexibility to expand plant capacity in later stages
- A larger production scenario could focus on extracting the global resource using bulk mining methods
- Bulk mining options require higher initial capital investment but benefit from lower operating costs

Mankayan Ownership Structure

- IDM International owns 64% of the Mankayan project through its subsidiaries – Asean Copper and Gibbous Holdings
- Corporate structure meets the requirement under MPSA of 60% local ownership*
- IDM have option agreements in place to re-structure the local shareholdings if required in the future.
- IDM International has board and management representation / control on Bezant, Asean Copper, Gibbous Holdings and Crescent Mining which ensures the desired outcome at the appropriate time

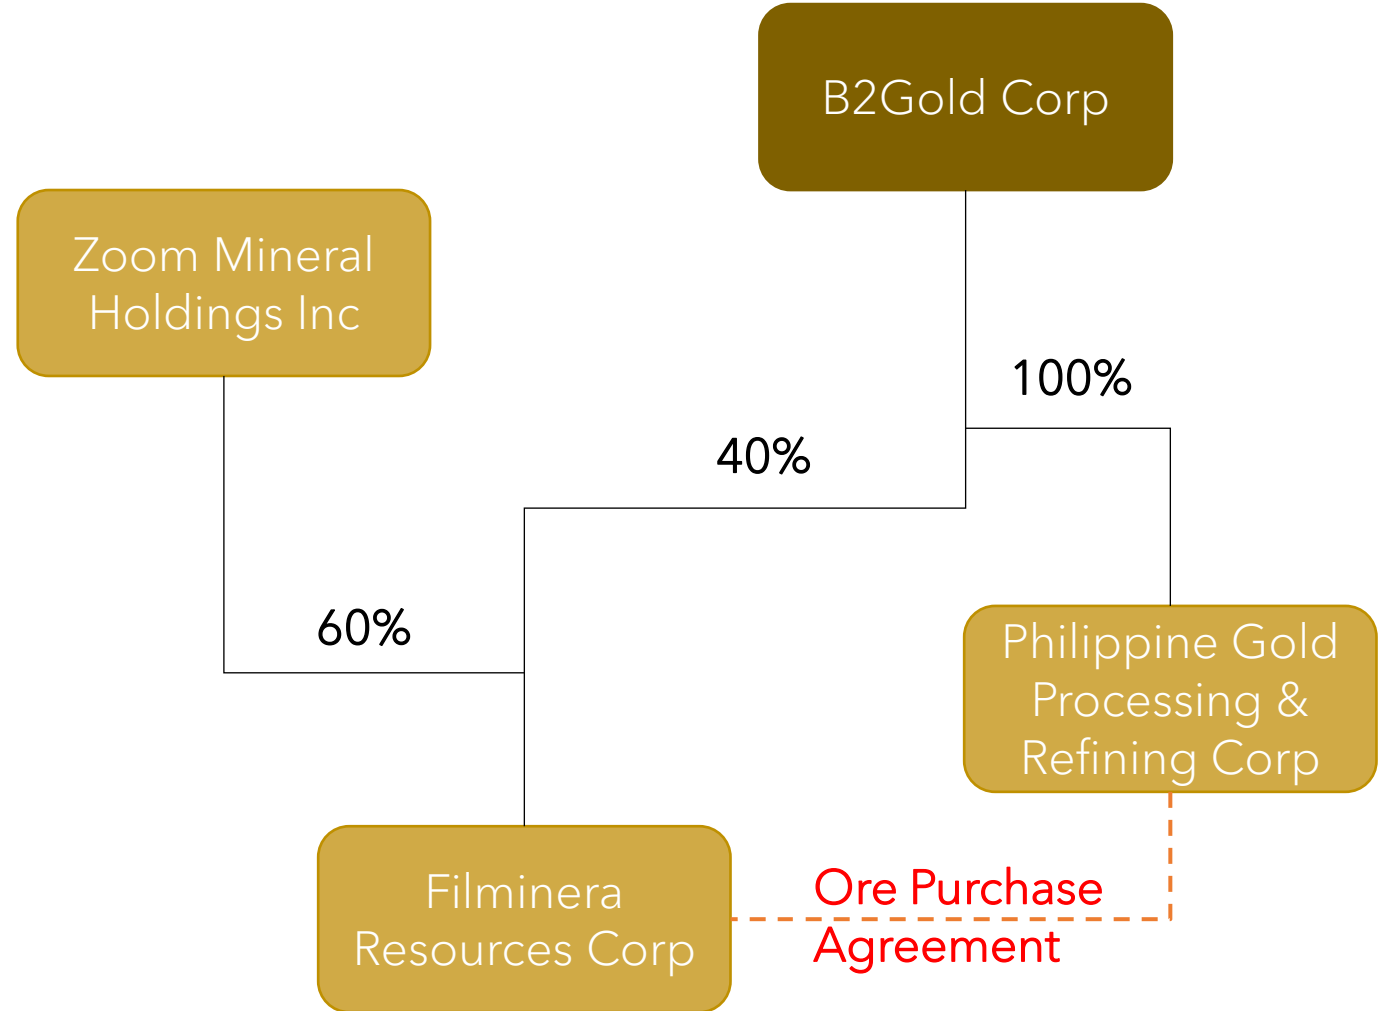

Case Study – Masbate Gold Project

Looking forward. Mining green.

- Philippine Gold Processing & Refining Corp (PGPRC)** is a wholly-owned subsidiary of B2Gold that buys all ore from the Masbate Gold Project. PGPRC developed and owns the process plant and is responsible for the sale of all gold
- Filminera Resources Corp** is a company that owns the majority of the Masbate Gold Project tenements. B2Gold has a 40% interest in Filminera, while Zoom Mineral Holdings Inc. owns the remaining 60%. Filminera is responsible for the mining, environmental, social, and community relations aspects of the project
- Zoom Mineral Holdings Inc** is a Philippines-registered company that owns 60% of Filminera and is owned by a Philippine shareholder
- PGPRC and Filminera have a contractual relationship, the **Ore Purchase Agreement** includes PGPRC purchasing all of the ore production from Filminera at a price equal to the cost for the ore plus a predetermined percentage, while maintaining joint financial and legal liability for the social and environmental obligations under Filipino laws

Mankayan Mineral Resource Estimate

Looking forward. Mining green.

Table 1. Mineral Resource reported at a cut-off criterion of 0.25% CuEq as at 30 September 2020.

Resource Category	Mt	CuEq (%)	Cu (%)	Au (g/t)	Ag (g/t)	CuEq (Mt)	Cu (Mt)	Au (Moz)	Ag (Moz)
Measured	-	-	-	-	-	-	-	-	-
Indicated	638	0.68	0.37	0.40	0.9	4.3	2.3	8.2	18
Inferred	155	0.52	0.29	0.30	0.5	0.8	0.5	1.5	3
TOTAL	793	0.65	0.35	0.38	0.8	5.2	2.8	9.7	20

Note: 1. Totals may not add due to rounding effects.
 2. CuEq calculation assumes metal prices of USD 2.80/lb Cu, USD 1,800/oz Au, and recoveries of 90% for Cu and 75% for Au.
 3. $CuEq\ (\%) = \frac{(Cu\% \times Cu\ price\ per\ lb \times 2,204.6 \times Cu\ recovery) + (Au\ g/t \times Au\ price\ per\ oz / 31.1035 \times Au\ recovery)}{(Cu\ price\ per\ lb \times 2,204.6 \times Cu\ recovery)}$
 $= Cu\% + 0.78 \times Au\ g/t$
