# HERITAGE SURVEY COMPLETED AT LEINSTER SOUTH

- Heritage survey completed for maiden drilling at Leinster South.
- PoW approved for extensive RC and diamond drilling.
- Drilling to commence as soon as possible following receipt of final clearance.
- Initial RC drilling will target high-grade gold at Thylacine and Siberian Tiger.
- Previously reported results from rock chip sampling<sup>1</sup> includes:

## THYLACINE

24DR905: 62.34 g/t Au  
24DR611: 62.29 g/t Au  
24JW113: 43.25 g/t Au  
24DR903: 32.37 g/t Au  
24DR617: 30.35 g/t Au

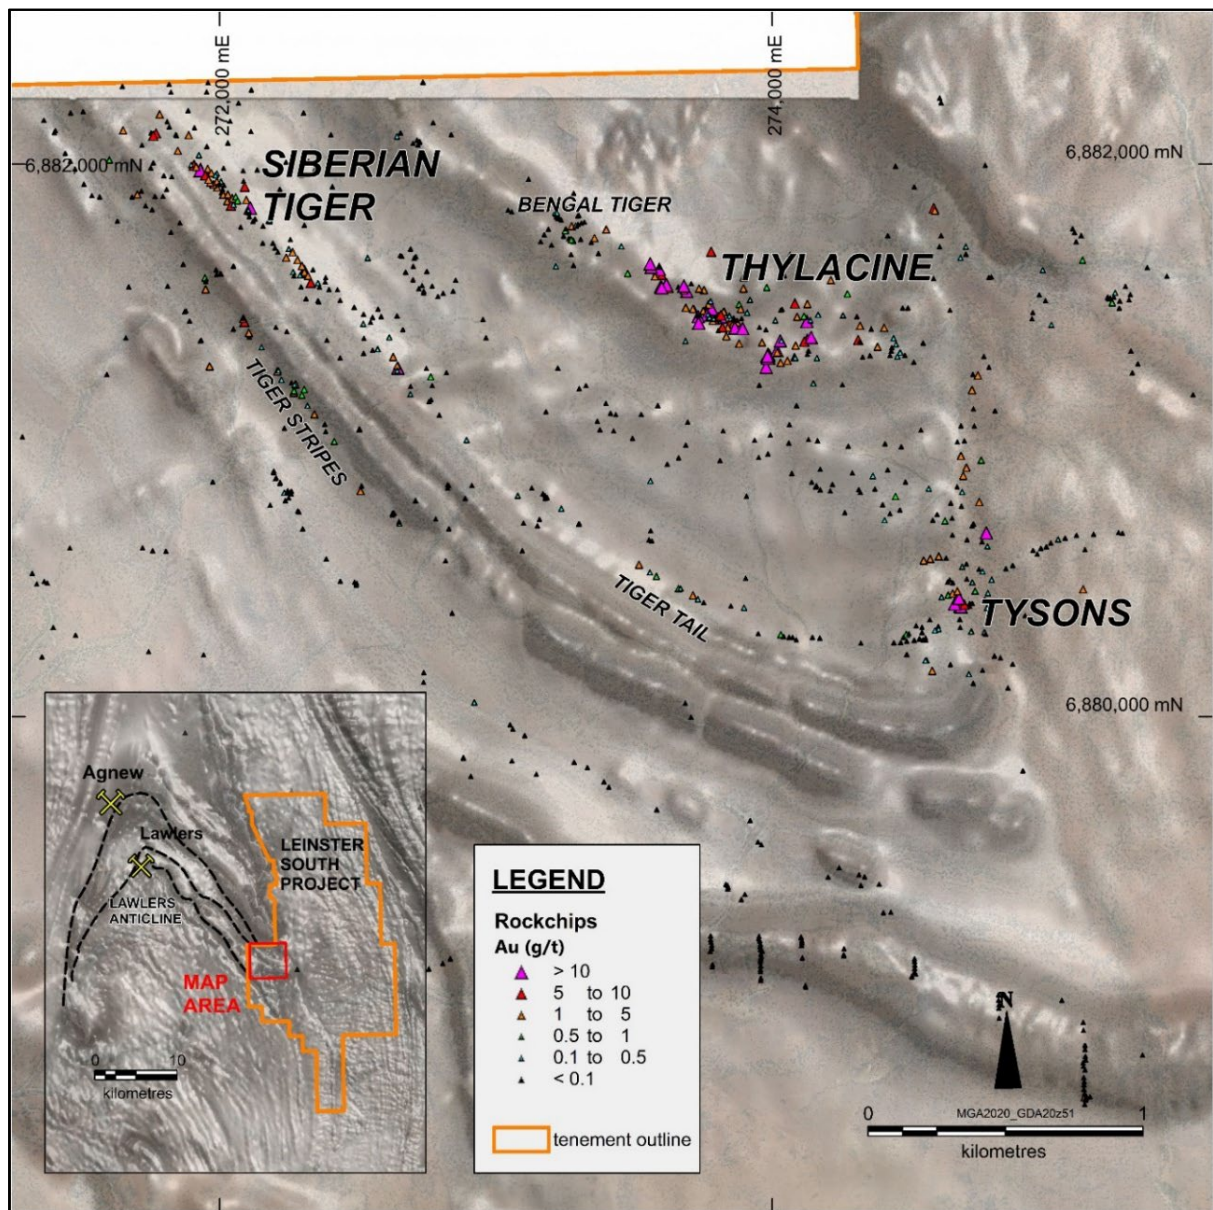

## SIBERIAN TIGER

24DR289: 30.87 g/t Au  
24DR158: 20.20 g/t Au  
24DR744: 18.48 g/t Au  
24DR757: 10.13 g/t Au  
24DR357: 9.29 g/t Au

Metal Hawk Limited (ASX: MHK, “Metal Hawk” or the “Company”) is pleased to advise that it is progressing well towards the maiden drilling program at its 100% owned Leinster South Project, in the world-class Agnew-Lawlers region, Western Australia.

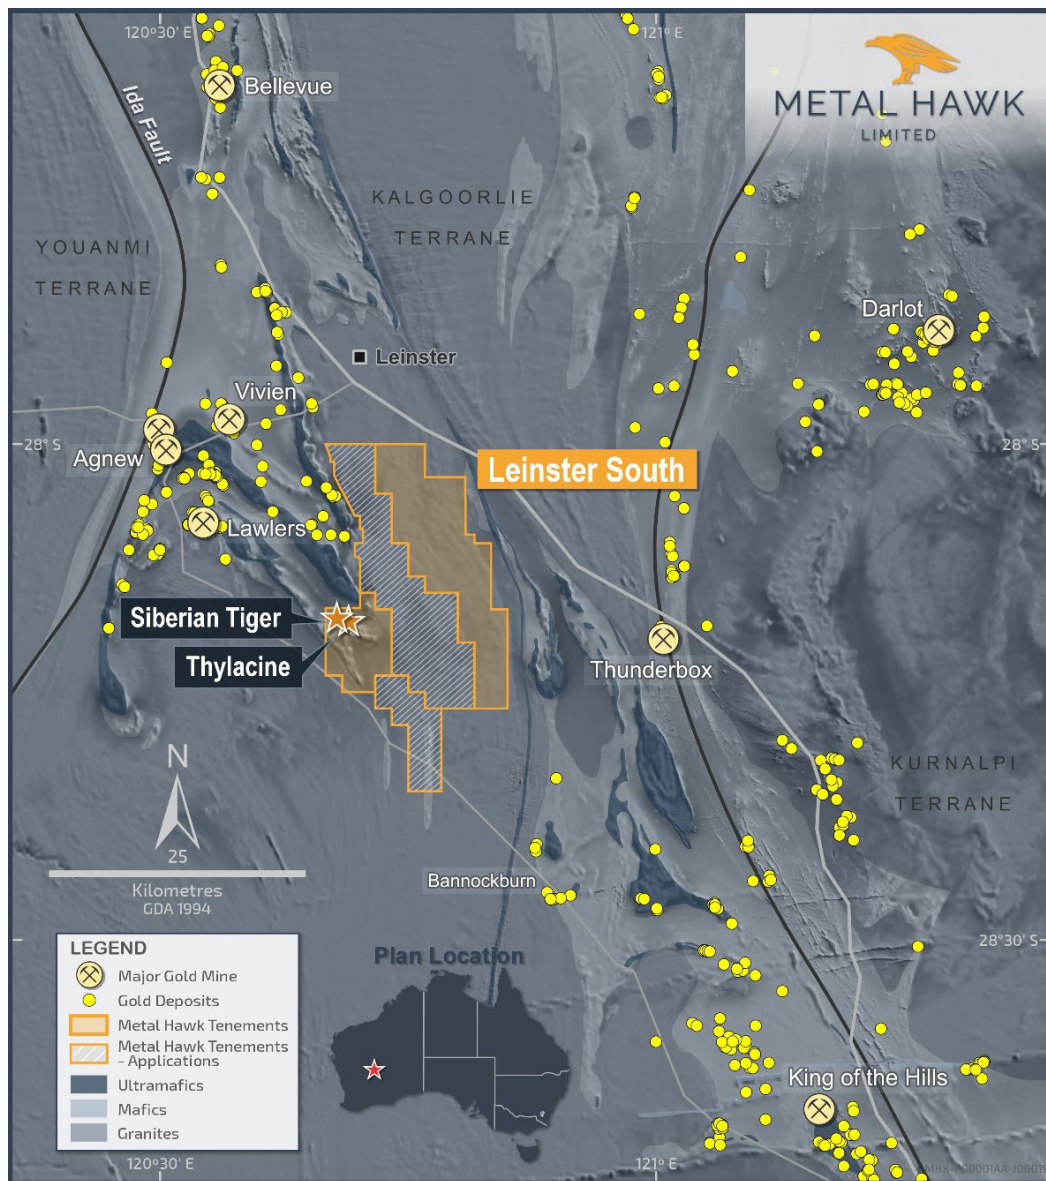

Following the discoveries of high-grade gold at Leinster South in 2024, Metal Hawk is preparing for extensive drilling at the Thylacine and Siberian Tiger gold prospects. A heritage survey has been completed, clearing a large number of drill sites and access to priority untested target areas. Additionally, Programme of Work (PoW) approval has been granted by the Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) for reverse circulation (RC) and diamond drilling at Leinster South.

**Metal Hawk’s Managing Director Will Belbin commented:** *“We are very pleased with the successful completion of a comprehensive archaeological and ethnographical survey at Leinster South. A lot of work has been carried out in preparation for this survey and I’d like to thank the survey team and the Traditional Owners, the Watarra Darlot Group. We now look forward to progressing with our plans for the first ever drilling at the Thylacine and Siberian Tiger gold prospects.”*
