Cyprium Metals Limited (**ASX: CYM / OTCQB: CYPMF**) (**Cyprium** or the **Company**), a copper developer focused on the phased restart of the Nifty Copper Complex in the Paterson region of Western Australia (**Nifty**), is pleased to advise it has received firm commitments to raise A\$36 million (before costs) via the proposed issue of approximately 69.2 million new fully paid ordinary shares in the Company (**New Shares**) at an issue price of A\$0.52 (**Placement**), and an additional A\$5 million (before costs) via a fully underwritten entitlement offer at the same price.

Executive Chairman Matt Fifield, said:

"As we progress towards first cathode production at Nifty, Cyprium is increasing its focus on growing our business rapidly. This equity capital raising allows us to accelerate workstreams progressing the next phase of the Nifty Copper Complex which involves expansion of SXEW capacity, designing and building a surface mine to access the shallow open-pit oxide ores and the sulphide ores beneath it.

We are also developing resources outside of the Nifty Copper Complex that could quickly come into a production plan. In particular, we have recently re-acquired control of the exploration grounds adjacent to Nifty that host multiple advanced targets on significant legacy exploration data. We expect to leverage this
